Rev. STANISLAUS T. GERRY, S.J.

DEDICATION

ONE OF THE FIRST FATHERS WE MET AS SMALL FRIGHTENED boys NEW TO BAGHDAD COLLEGE WAS THE GRUFF MAN BEHIND THE COUNTER OF THE BOOKSTORE. AS THE MONTHS AND YEARS PASSED, WE DISCOVERED THAT BENEATH THIS GRUFFNESS LAY A SINCERE INTEREST IN EACH STUDENT. UNDER HIS FIRM GUIDANCE WE WERE TO LEARN TO STUDY SYSTEMATICALLY AND PERSEVERINGLY. WE CAME TO UNDERSTAND THAT HIS CONCERN AND WILLINGNESS TO HELP COULD ALWAYS BE COUNTED ON. FOR THIS REASON THE GRADUATING CLASS OF 1968 IS GLAD TO SHOW DEEP RESPECT, ADMIRATION AND APPRECIATION TO FR. STANISLAUS T. GERRY, S.J. BY DEDICATING THIS ISSUE OF THE AL-IRAQI TO HIM. THANK YOU, FR. GERRY, WE WILL REMEMBER YOU FOR MANY YEARS TO COME.

A black and white photograph of a school building with a large arched entrance. A bus is parked in front of the building. Several students are standing in the foreground, some talking and some looking towards the camera. The text "SENIOR CLASS" is overlaid on the right side of the image.

SENIOR CLASS

Baghdad College

ABADI ABADI

عبادي اركان العبادي

After having received sufficient knowledge in all subjects at B.C., I found my interest in Mathematics and Physics. Like all students, I enjoyed sports, especially basketball and baseball. During my spare time I would practice my hobby of drawing or listening to music. My wish is to become an architect.

"Al-Iraqi" Staff, Basketball, Intramural Sports.

ABDUL-HAQ IBRAHIM

عبد الحق ابراهيم السامرائي

It has always been my desire to make as many friends as possible during my years at Baghdad College. I enjoyed all sports, especially football and baseball. I was interested in Biology, Physics, and Chemistry Laboratory. For this reason I hope to obtain a medical degree in the future.

Football, Intramural Sports.

ABDUL-MUJIB ABDUL-KARIM

عبد المجيب عبد الكريم

In the scholastic field I enjoyed Chemistry and Biology. I enjoyed the company of my classmates and formed lasting friendships among them. In the field of athletics, I enjoyed tennis and swimming.

Debating Society.

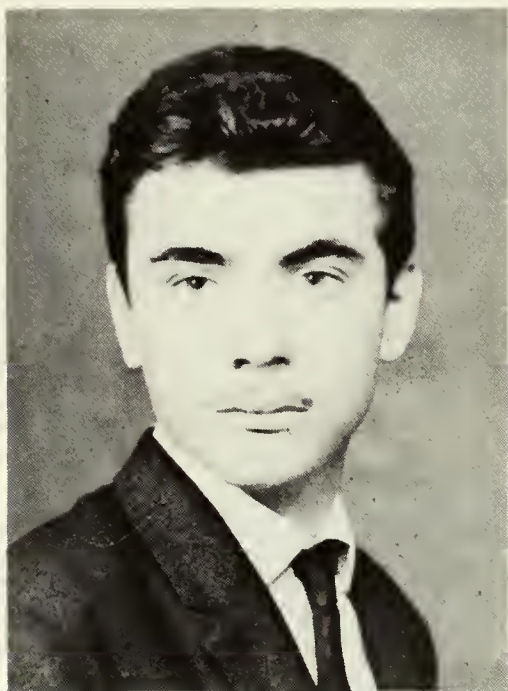

Class of 1968

ADIL ISA

عادل عيسى بطرس

I was an active student and enjoyed all sports at Baghdad College, particularly football which I played often. For relaxation during holidays I spent my time listening to soft music and going to the cinema. My favorite subjects were English and Biology Laboratory. I enjoyed making friends. This is one reason why I have chosen a career in teaching.

Football, Intramural Sports.

AHMAD WALID

احمد وليد احمد

I enjoyed my five years at B.C. very much. Biology and Physics experiments were interesting, but Chemistry laboratory was more than exciting. In school I enjoyed sports, especially football, and when at home I liked to relax with a good book. As for my future, I hope to be an engineer.

Debating Society, Football, Scientific Academy.

AKRAM ABDUL-KARIM

اكرام عبد الكريم حمدي

My five years at Baghdad College were a remarkable experience which enabled me to make friends among the Fathers and students. I participated in football and handball. In the scholastic field my interest in Biology draws me towards a career in medicine.

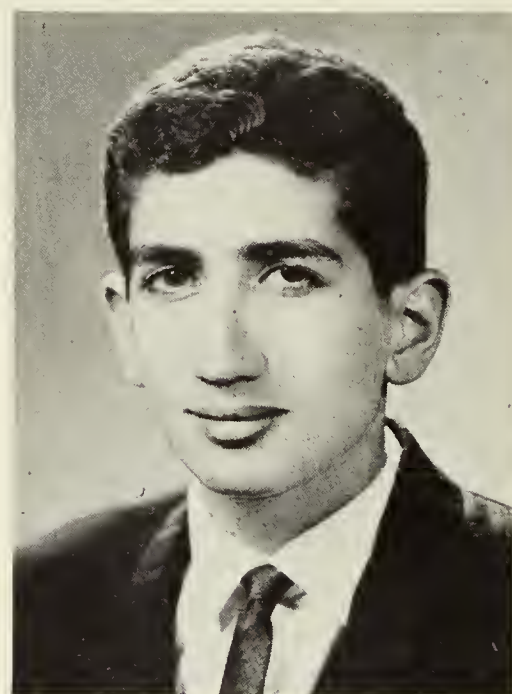

ALI ABDUL-WAHAB

علي عبد الوهاب مرجان

During my five years at B.C. I enjoyed all sports, especially volleyball and football. In school I liked Physics and Botany, in addition to their laboratories. Outside school I enjoyed reading books. I hope to find success in Petroleum.

Debating Society, Intramural Sports.

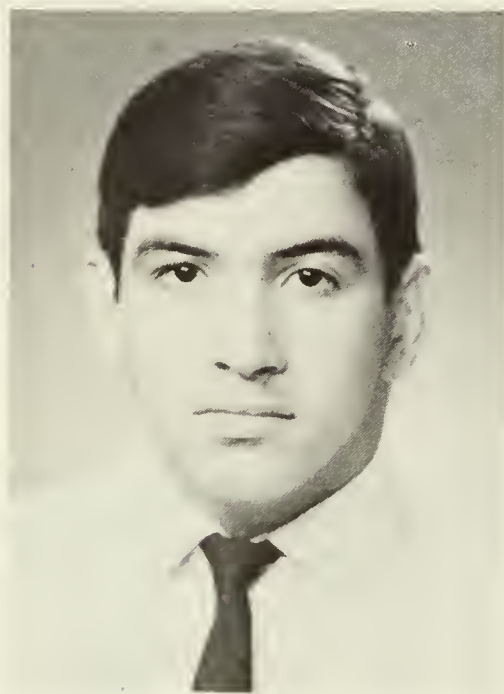

ALI SADIQ

علي صادق محمد جواد

The most important part of a person's life is his teens. This part of my life I spent at Baghdad College. I was interested in Physics, Biology, and Chemistry. I spent my spare time in going to cinemas, playing football, swimming, and reading detective stories. Being a human physiologist is the target I am aiming at.

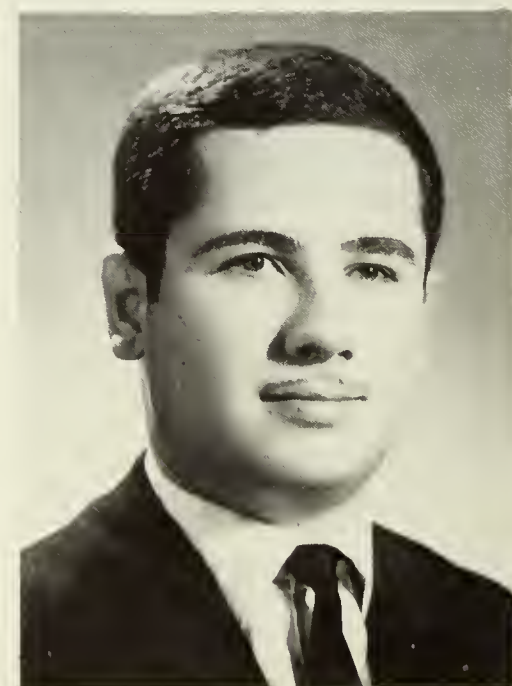

Mathematics Academy, "Al-Iraqi" Staff, Scientific Academy, Intramural Sports.

AMIR ABBAS

عامر عباس عبدلي

These five years at Baghdad College have been pure pleasure and a significant experience. In school I liked Physics and Biology laboratory the most. Outside school my leisure time was divided between playing and reading scientific books.

AMIR HABIB ASMARO

I found my years at B.C. quite enjoyable. Mathematics, Physics, Chemistry, and Biology were my favorite subjects. I also found laboratory work more than exciting. During my free time I enjoyed chess, general reading, and listening to soft music. Outside school I was enthusiastic about sports, especially football and basketball. As for my future, I hope to pursue a degree in petroleum engineering or geology.

Mathematics Academy, Sodality, Library Staff, Bus Prefect, Debating Society.

AMIR JAMIL

عامر جميل زيونه

Having tried my utmost to be quiet, I arranged my time so as to grasp all scientific subjects which I hope will lead me to the field of mechanical engineering. Driving and swimming are my favorite hobbies.

"Al-Iraqi" Staff, Intramural Sports.

AMIR MICHAEL

عامر ميخائيل جورج

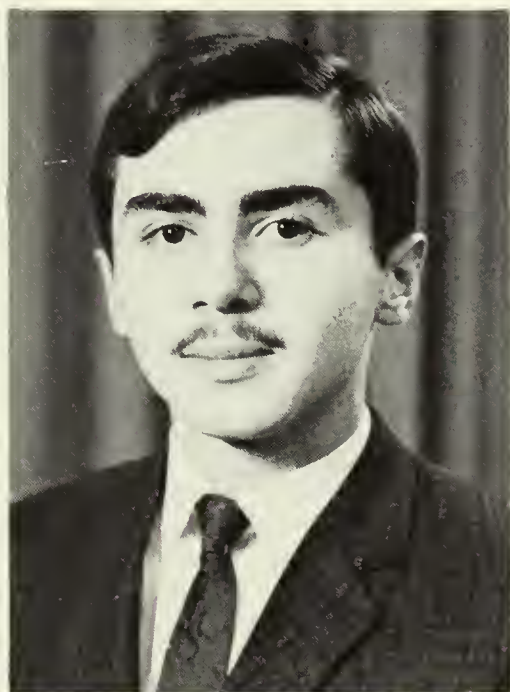

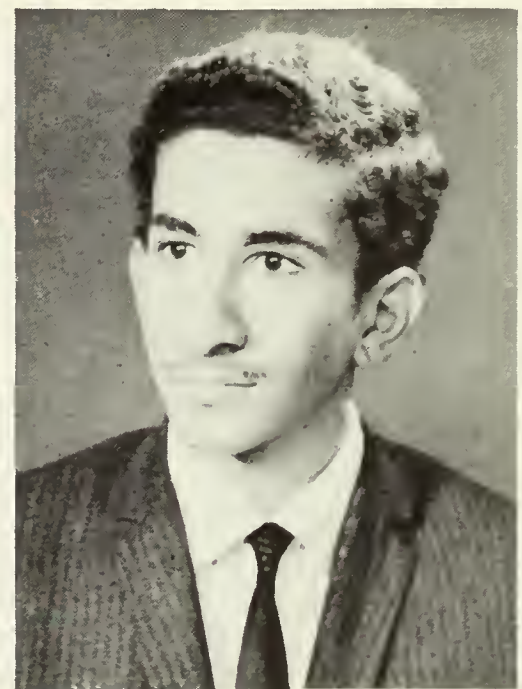

During the five years I spent at B.C. baseball and football were my favorite sports. I was interested in Physics, Solid Geometry and Biology laboratory. For relaxation I enjoyed listening to popular music. Outside school I spent my leisure time in reading scientific books, especially astronomical books. My interest in Physics leads me towards the field of astronomy.

Sodality, Scientific Academy, Debating Society, Intramural Sports.

AMIR MUSA

عامر موسى المرباتي

For me school has been a time for study and the acquisition of knowledge. In my leisure time I read medical books, as a preparation to study medicine. I like to spend some of my free time doing experiments in Chemistry and Physics, my favorite subjects.

ANMAR MUDHAFFAR

انمار مظفر التک

I spent many happy hours in the Biology and Chemistry laboratories. I was always ready to help my companions. Swimming and football were my favorite sports. Occasionally I would relax with a good book. Since Biology, Chemistry and Physics were my favorite subjects, I hope to continue my studies in medicine.

Debating Society, Intramural Sports.

ANWAR KHAYATT

انور ادمون خياط

During my years at Baghdad College I enjoyed making friends. My favorite sport was swimming. In my leisure time I relaxed by listening to music, reading and going to the cinema. The subjects I liked best were Physics and Mathematics which should enable me to succeed in the field of electrical engineering.

Sodality, Intramural Sports.

ARA GHAZARIAN

ارا مسروب غازاريان

During the past five years at B.C. I found sports very interesting, in addition to my studies. Tennis and baseball were my favorite sports. Outside school I enjoyed watching all kinds of games. My interest in Physics and Solid Geometry leads me to a career in mechanical engineering.

Intramural Sports.

ARSHAM BALTAIAN

ارشام ارمان بالتايان

Five short years with Fathers, teachers and friends I consider the best years of my life. Athletics are in my blood and B.C. provides all activities for students. My interest in Mathematics and Science draws me towards mechanical engineering as a career.

Basketball, Intramural Sports.

ARSHAM MELCONIAN

ارشام انترانيك ملكونيان

Mathematics and Physics were my favorite subjects at B.C. I also enjoyed Biology pretty much. Occasionally basketball provided my pleasure, and baseball found me no stranger. Outside school I enjoyed swimming, listening to music or driving a car for relaxation. My liking for Physics and Mathematics leads me to engineering.

Intramural Sports.

ASAD AL-DURI

اسعد عبد المحسن الدوري

My five years at B.C. were years of great enjoyment and invaluable profit. The subjects which I found more interesting were Biology and Physics, laboratories and classes. I usually devote my leisure time to reading literary and scientific books. My interest in Biology and Physics makes me look forward to a medical career.

Debating Society, Intramural Sports.

AYMAN MUHAMMAD

ايمان محمد جليل

Being athletic, I played various sports, but football and track were my favorites. I devoted my leisure time to reading stories. My strong interest in Mathematics and Physics indicates a future career in electrical engineering.

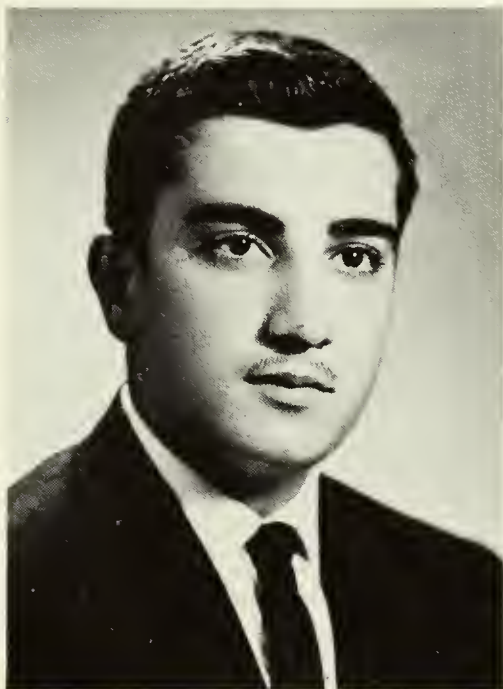

Intramural Sports.

AZAM QANBAR AGHA

عزام عبد الرزاق قنبر اغا

During my school years I enjoyed all kinds of sports, especially football, baseball and track. Off campus my favorite activities were swimming and reading magazines. However, sports were not my only interest; my love for Biology and Mathematics makes me hope to obtain a medical degree.

Mathematics Academy, Scientific Academy, Debating Society, Bus Prefect, Intramural Sports.

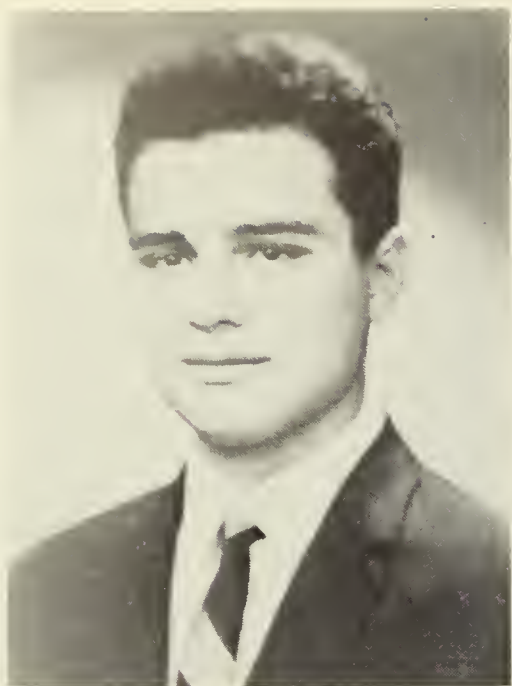

BAGHDO KHALIL

بغدو خليل عبد الاحد آقاي

My years at B.C. were happy years. I played baseball and basketball, but my studies were more important. Off campus I liked to read and listen to various kinds of music. My favorite subjects were Mathematics, Chemistry and Physics. This makes me look forward to a career in engineering.

Debating Society, Intramural Sports.

BAQIR SADIQ

بأقر صادق البصام

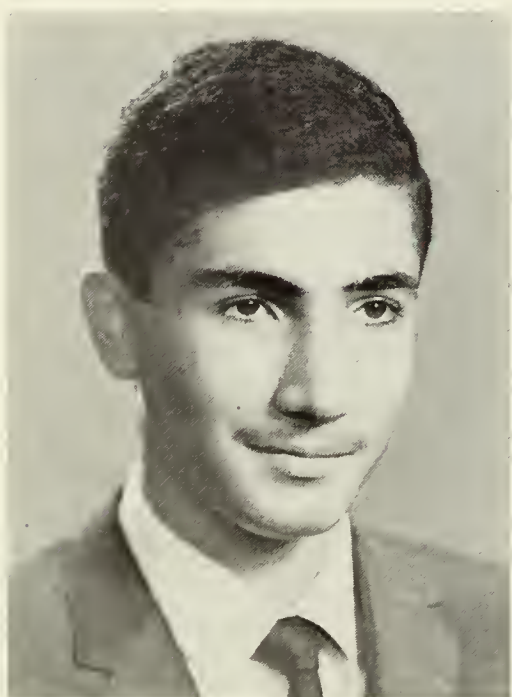

I found my main interest at B.C. in Chemistry, Biology and Arabic. In my free time I liked reading chemistry and biology books. Occasionally I enjoyed a game of handball or baseball. I hope to be an army pilot in the future.

BASIL SHAYA

باسل شعيا الرئيس

I was interested in sports during my time at Baghdad College. I also developed an interest in Biology and Chemistry. When off campus my favorite activities were swimming, listening to music, and general reading. My interest in science opens the gateway to the study of medicine in the future.

Scientific Academy, Debating Society, Intramural Sports.

BASIM AHMAD

باسم احمد نجم الدين

I found my main interest in Physics and Mathematics. Tennis was my best sport, besides basketball, football and baseball. I usually spent my leisure time in sports and reading. I always wanted to be in the sky and look forward to a career as a pilot.

Basketball, Intramural Sports.

BURHAN ADIL

برهان عادل جلال

I enjoyed my life at B.C. both studying and playing. I specially liked baseball, basketball and football. Botany was my best lesson. In my free time I like to sit alone and think about my future. My future is still unclear to me.

Bus Prefect, Debating Society, Basketball.

BURHAN JAMIL

برهان جميل عمو

These five years at B.C. have been a precious advantage and an invaluable experience. Chemistry, Zoology and Physics labs were more than exciting. At school I enjoyed playing tennis and football; outside I found pleasure in listening to music and reading various books. I hope to follow a career in medicine.

"Al-Iraqi" Staff, Intramural Sports, Scientific Academy.

DARA BABA ALI

دارا بابا علي محمد

My unforgettable years at Baghdad College were really exciting ones. I made a lot of friends with whom I played my favorite sports, basketball and handball. I spent most of my holidays hunting. My interest in Physics, Geometry and English directs me to mechanical engineering.

Debating, Intramural Sports.

DIMITRI VESTARKIS

ديمتري فستاركس

During my years at B.C. my leisure time was spent in making friends. My interest was almost completely taken up by Chemistry, especially the lab. At home I enjoyed hearing music. Football stands as my favorite sport.

Sodality, Bus Prefect, Debating Society.

EMIL WILLIAM

اميل وليم غازي

In my five years at B.C. I enjoyed all the lessons of Mathematics. I also liked all sports, especially basketball. My future plans are in the field of engineering.

FADHIL ABBAS

فضل عباس اسماعيل

My five years at B.C. have been an invaluable experience. In class I was chiefly interested in Geometry, Algebra, and Chemistry. My hobbies outside school are debating and reading. In the future I hope to find success in studying nuclear physics.

Mathematics Society.

FAIQ BUTROS

فائق بطرس الجابي

My five years at Baghdad College enabled me to make many friends. I found pleasure in many sports, most of all basketball. Besides sports, I enjoyed Physics and Chemistry labs. I believe that my B.C. background will support me in my engineering studies.

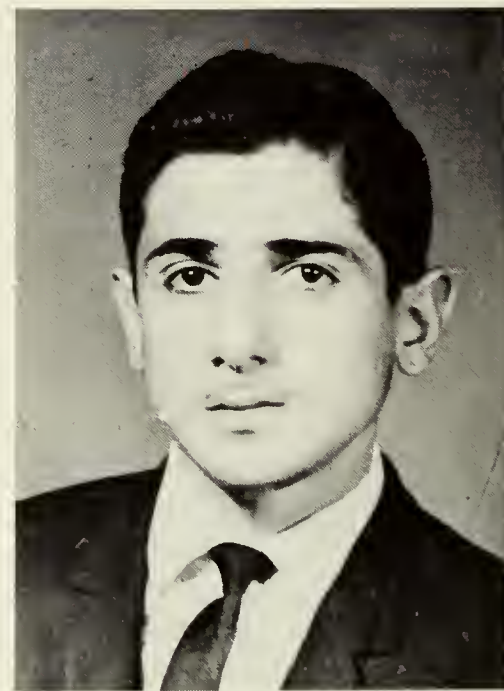

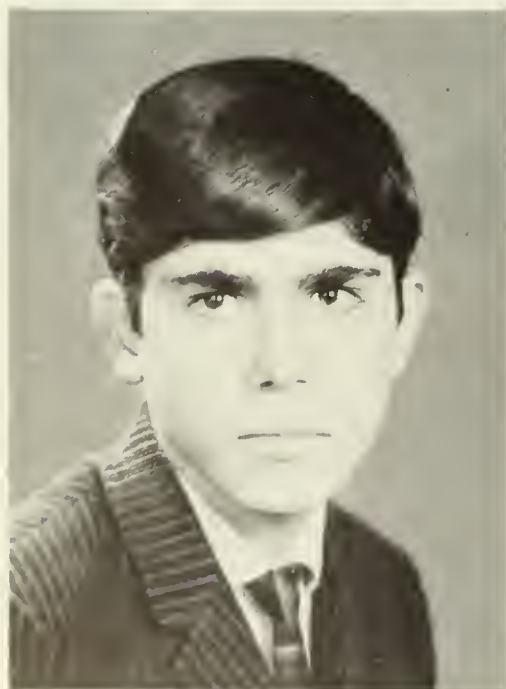

"Al-Iraqi" Staff.

FAIQ QUNJA

فائق قونجا

It has always been my desire to make as many friends as possible during my five years at B.C. I enjoyed all sports, especially football and baseball. I was interested in Physics and Mathematics. My enjoyment in the Physics lab draws me to a future in electrical engineering.

Intramural Sports.

FARID OGHANA

فريد عيسى اوغنا

Although I found myself lonely at B.C. in the beginning, I soon learned that it was a friendly place whose academic facilities would equip me properly for a career later. Being athletic, I played various sports, but football was my favorite. Off campus I relaxed in drawing or hearing music. Biology and Physics labs were most interesting. I hope to make my career in medicine.

Sodality, Debating Society, Intramural Sports.

FARIS AYOUB

فارس ادور ايوب

I enjoyed reading stories, especially mysteries. Physics and Chemistry were my favorite subjects. Nevertheless, my future plans are to become an architect. I liked playing baseball and basketball. I spent most of my recreation hours in listening to music and going to movies.

Sodality, Intramural Sports.

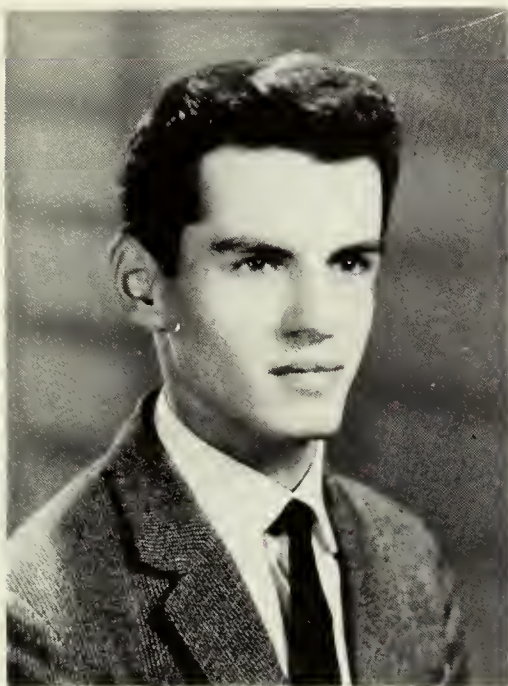

GABRIEL AL-BAJANI

كبريال الياس البجاني

Friendly and energetic, I spent most of my leisure hours playing basketball, my favorite sport. However, I was also interested in Chemistry and Physics; reading dramatic stories is my favorite pastime. I hope to be an architect.

Basketball, Intramural Sports.

GEORGE BABANA

جورج بابانا

During my years at B.C. I enjoyed the work in Chemistry, Physics and Biology labs. I spent most of my leisure time at school in playing basketball, my favorite sport. My interest in Chemistry and Biology will lead me to the field of medicine.

Intramural Sports.

GEORGE ISHU

جورج ايشو متي

My years at Baghdad College have been a pleasant experience because of the many friends I have gained and the fine education I have received. My favorite sports were football and volleyball. Outside school I enjoyed swimming and watching T.V. My main interests in the classroom were Botany and Zoology which prompt me to decide on a medical career.

Intramural Sports.

GHAITH AL-SAUD

غيث احمد السعود

The subjects which I found most interesting were Chemistry and Biology. I let nothing prevent me from benefitting as much as possible from the education offered in those lessons. I enjoyed the company of my classmates and formed lasting friendships among them.

Debating Society, Scientific Academy.

GHASSAN AL-MUDALLAL

غسان محمد بسيم المدلل

My years at Baghdad College were enjoyable, happy years. Biology and Physics were my favorite subjects. I found lab-work very interesting. Sports attracted me, my favorites being baseball and football. Off campus and for relaxation, swimming was my best pastime. Biology should help me to undertake a career in medicine.

Mathematics Academy, Scientific Academy, Debating Society, Intramural Sports.

GHAZWAN AL-SARHAN

غزوان مدحت السرحان

During the five years that I spent at Baghdad College I enjoyed all subjects but Physics and Chemistry were my favorites. When relaxing during the holidays, I enjoyed books, playing music and collecting stamps. I was a lover of all sports, especially baseball and volleyball. I look forward to a medical career.

GHIATH SALIM

غياث سليم الصائغ

I enjoyed my years at Baghdad College to the utmost. I was a faithful and devoted member of the sodality. Handball and volleyball at school, and swimming during the summer were my favorite sports. Reading scientific books occupied most of my leisure time. My ability and keen interest in Biology and Chemistry will aid me in fulfilling my ambition to obtain a medical degree.

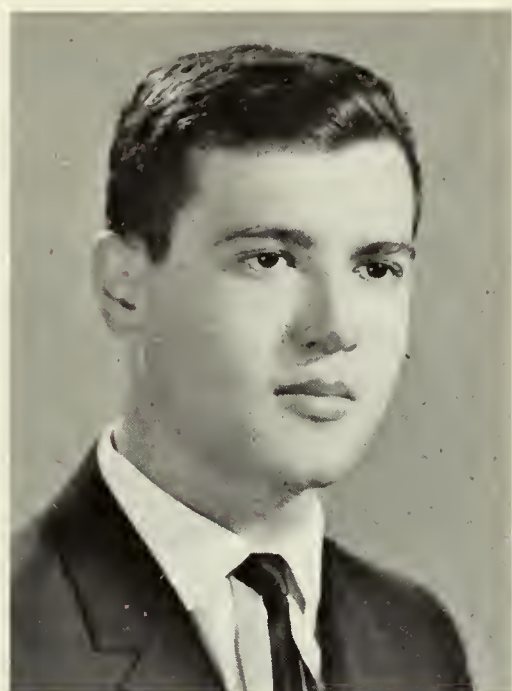

Sodality, Intramural Sports.

HABIB MANSUR

حبيب منصور الخيوي

During my years at Baghdad College I was enthusiastic about Chemistry, Physics and Mathematics. I enjoyed playing baseball and tennis. The laboratories were very helpful and interesting. My interest in Mathematics and Physics leads me to engineering.

Intramural Sports.

HAIDAR AL-SHAMMA

حيدر عبد الصاحب الشماع

During my five years at B.C. I enjoyed working in the laboratories very much. My favorite sports were football and baseball. Outside of school my leisure time was divided between reading and watching football games. My interest in Chemistry and Mathematics steers me toward chemical engineering.

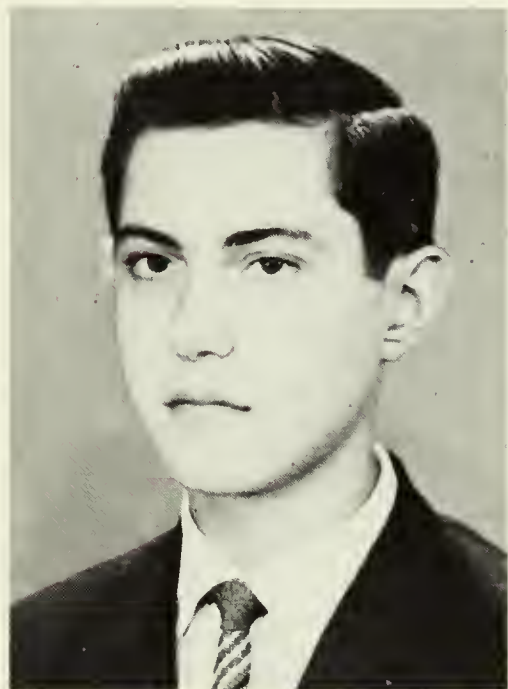

"Al-Iraqi" Staff, Scientific Academy, Intramural Sports.

HAITHAM ALLOS

هيثم بشير اللوس

I made many friends at B.C. and it was with them that I spent the happiest five years of my life. The most interesting subjects for me were Physics and Mathematics. Outside of class I used to spend my leisure time playing tennis, ping-pong, swimming, hunting, and reading scientific books. My interest in Physics indicates a future career in engineering.

Mathematics Academy, Sodality, Scientific Academy, Debating Society.

HAITHAM AL-ZAHAWI

هيثم عبد الرحمن الزهاوي

During my scholastic years at B.C. I tried to be esteemed by my friends and teachers. As for sports, I favored playing tennis very much. At home, I spent my time absorbed in reading books and in gardening. An interest in Chemistry and Biology directs me toward a future career in medicine.

Intramural Sports.

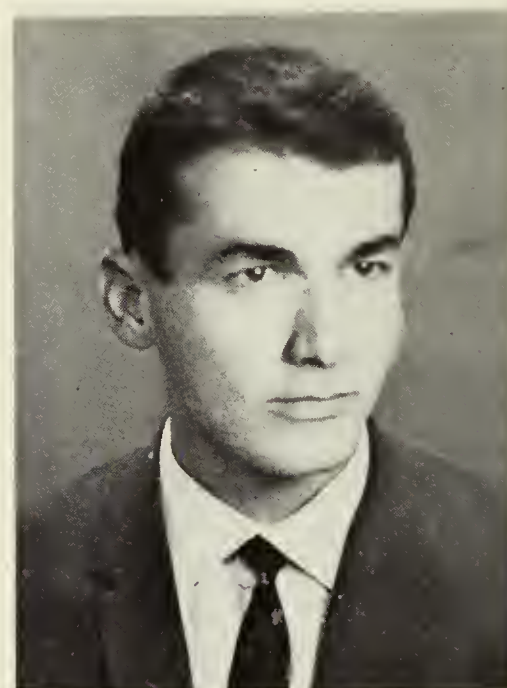

HANI MARAR

هاني جورج مرار

Physics, Math and Chemistry were my main interests at school; tennis and football, my favorite sports. I liked scientific books, particularly those on astronomy. Chess and the cinema are other activities which I enjoyed. My goal is to be an electrical engineer.

Mathematics Academy, Scientific Academy, Sodality, Intramural Sports.

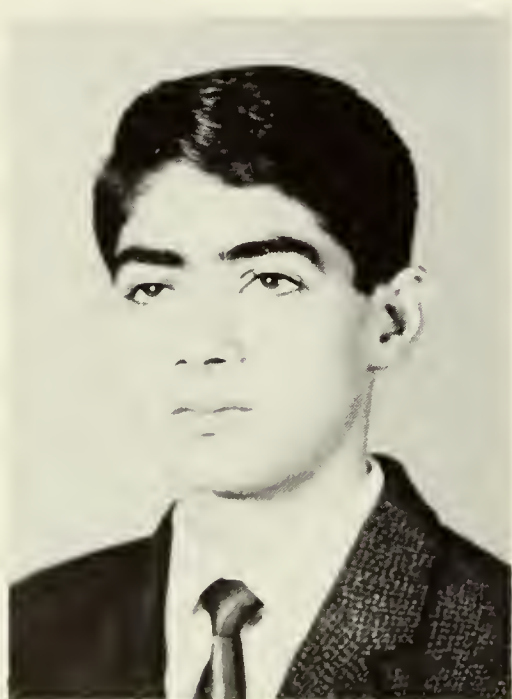

HANNA MUSA

حنا موسى

During my five years at B.C. I enjoyed all kinds of sports. I liked Physics, Biology, Chemistry and Math very much and I am hoping to continue my studies in the field of engineering.

Intramural Sports.

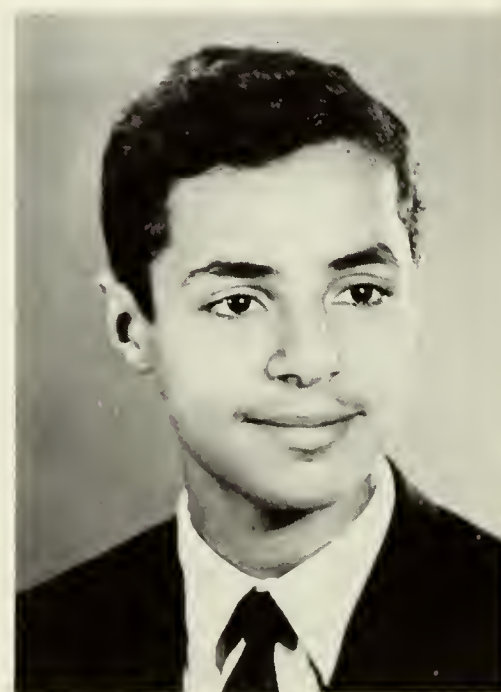

HARB ZAKU

حرب جليل زكو

I always found pleasure in the company of my classmates. I enjoyed various sports, especially football and handball, and sometimes I played ping-pong, volleyball and basketball. My interest in Biology, Physics, and Math leads me toward a career in electrical engineering or medicine.

Debating Society, Intramural Sports.

HARITH AL-ATIYYA

حارث العطية

I spent the most pleasant period of my life at Baghdad College. I was completely absorbed in the laboratory work of Biology and Chemistry. I liked football best of all the activities. My leisure time was spent in reading sports magazines. I hope to find a career in medicine.

Bus Prefect, Debating Society, Intramural Sports.

HARITH MUNIB

حارث منيب محمد علي

The subjects which I found most interesting were Biology and Chemistry and I spent many happy hours in the laboratories. I enjoyed sports, especially basketball and football. Outside of school I spent my leisure time in reading scientific books and magazines. My interest in the sciences may lead me to a future in medicine.

Intramural Sports.

HASAN ABDUL-HADI

حسن عبد الهادي

During my time at B.C. I made a lot of friends. I was interested in Chemistry. My spare time was used in going to cinemas and playing football. Being an engineer is the target I am aiming at.

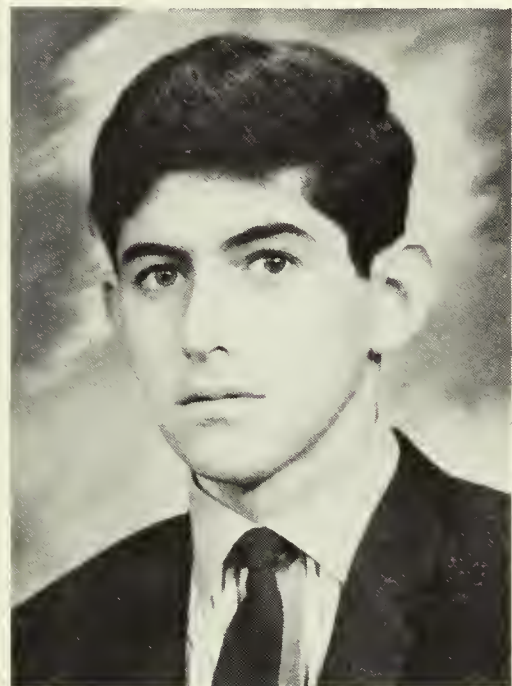

Intramural Sports.

HASAN AL-MAKHZOUNI

حسن محمد المخزومي

My time at Baghdad College was divided between studies and sports. I enjoyed the classes I attended, mostly the Zoology class. At home I enjoyed listening to classical music and also did some outside reading. My interest in science and humanity shall lead me to a future in medicine.

Debating Society, Intramural Sports.

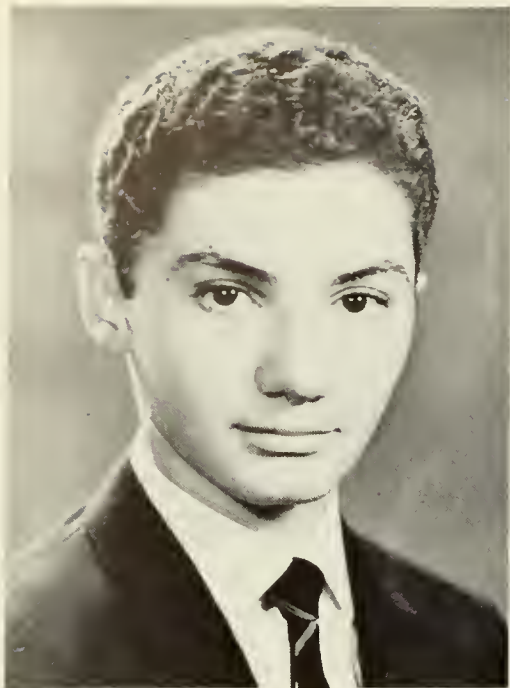

HASAN ALI

حسن علي نصرالله

I spent five years at B.C. and they were the most pleasant years of my life because of the many friends that I gained. My favorite subjects were Zoology and Physics. I enjoyed playing football. My interest in Zoology and Botany has led me to decide on a medical career.

Intramural Sports.

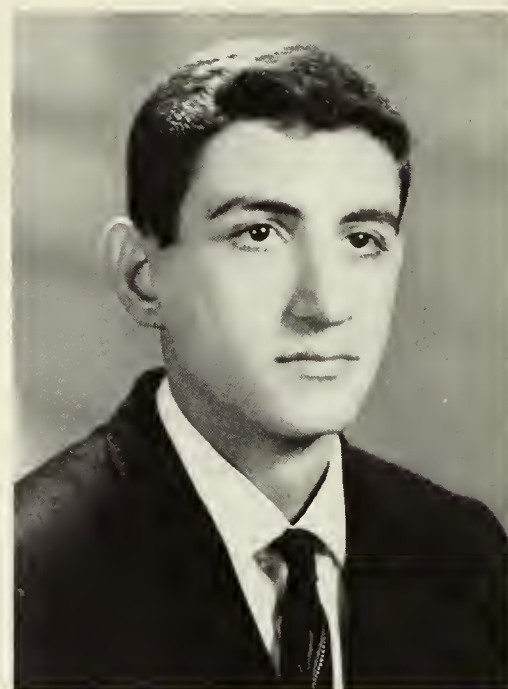

HIKMAT GEORGE

حكمت جورج نعيم

At Baghdad College I was an enthusiastic member of the Mathematics Academy and always attended the sodality meetings. As for sports, I favored tennis and swimming. Scientific books, soft music and stamps occupied my leisure hours. My ardent interest in Solid Geometry and Biology will aid me in my future, whether it be in engineering or medicine.

Mathematics Academy, Debating Society, Scientific Academy, Sodality.

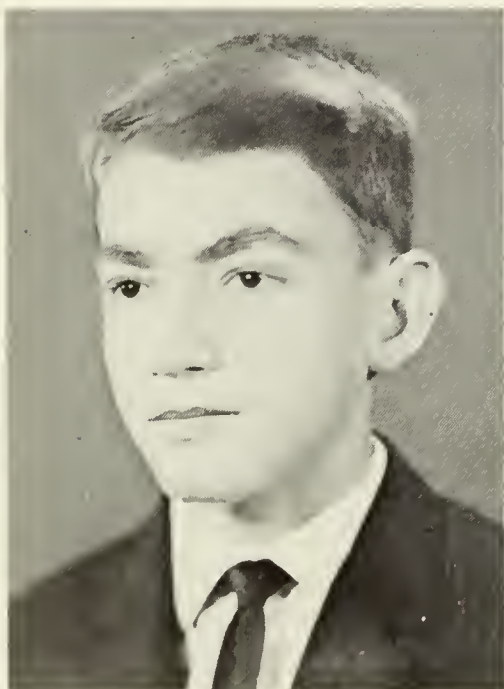

HIKMAT NAUM

حكمت نعيم جرجيس

I won sincere friends at Baghdad College. My favorite sports were football and handball. Off campus I liked to watch football games or read science books. I enjoyed the laboratory work of Biology and Physics. My interests in Mathematics and Physics leads me to pursue my studies in the field of engineering.

Mathematics Academy, Sodality, Intramural Sports.

HUSAIN HILMI

حسين غازي حلمي

It was an interesting and enjoyable five years. At first this great school filled me with awe, but soon I felt that it was the most friendly place for me. I was mostly interested in Physics, especially during the last two years. I look forward to a medical career with a specialization in eye surgery.

Intramural Sports.

HUSAM HAIDAR

حسام حيدر الطويل

I made many friends at B.C. and immensely enjoyed working with them in the Biology and Physics labs. Outside of class I divided my leisure time between football and reading. My ambition is to be a doctor.

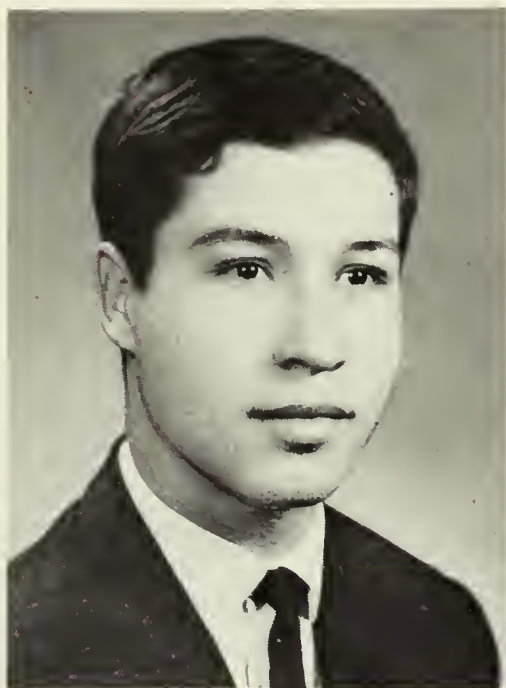

Intramural Sports.

HUSAM YAQUB

حسام يعقوب الشيخ

Part of my happy stay at Baghdad College was spent in the Boarding House which is now closed. I found Mathematics, Physics, and Chemistry my favorite subjects and liked to read in my leisure time. After my graduation from B.C., I would like to pursue a career in electrical engineering.

Mathematics Academy, Sodality.

IHSAN AL-HAIDARI

احسان علي محمد الحيدري

My five scholastic years at B.C. were extremely full of enjoyment. I won many friends among the Fathers and students, while gaining an invaluable and significant experience. Being enthusiastic about Biology and Physics, I hope to enter the surgical field, which has attracted me for many years.

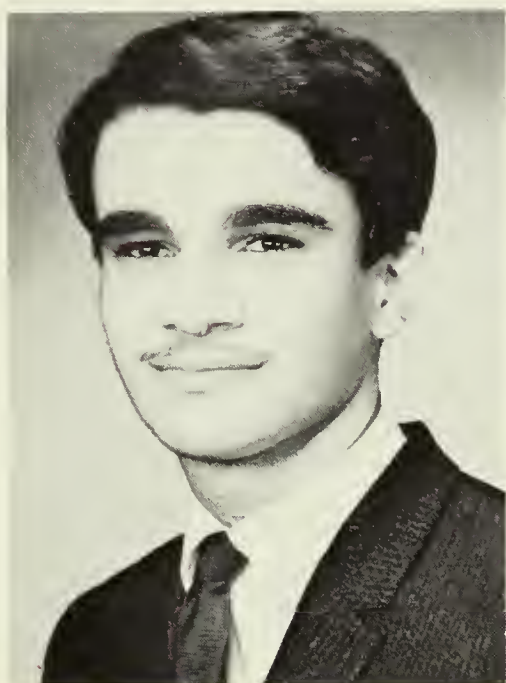

Scientific Academy, Debating Society.

IHSAN KAMMUNA

احسان كاظم كونه

Due to the efforts that B.C. has spent in teaching its students and directing them towards good degrees, I hope to associate with others in the medical field to help rid Iraq of disease.

"Al-Iraqi" Staff.

IMAD ABDULLAH

عماد عبدالله

My favorite subjects were Chemistry and Physics. Chemistry lab gave me much enjoyment because there I could pursue my hobby of dealing with chemicals and doing successful experiments. At home I spent my leisure time listening to classical music and playing chess. I have not yet decided about my future studies.

IMAD YAQUB

عماد يعقوب كلي

I won many friends during my years at Baghdad College. During these years I liked all sports, but I preferred football and handball. I also had a pleasant time working in the various labs. For relaxation I enjoyed reading social books and collecting stamps. My interest in Mathematics and Chemistry draws me to a future in chemical engineering.

Sodality, Debating Society, Intramural Sports.

ISAM AL-UBAIDI

محمد عصام حسام عبد الرحمن العبيدي

These five years in Baghdad College have been a time of pure pleasure and invaluable profit. My favorite sport was handball. I spent my leisure time in reading scientific books because of my interest in Physics and Mathematics. I have chosen a career in engineering.

Debating Society.

IYAD BASHIR

اياد بشير فرنسيس

Every day I spent at Baghdad College gave me new ideas and thoughts about life. I enjoyed very much helping the Sodality, and was also fond of playing volleyball and handball. My interest is in studying Biology. I usually spend my leisure time in editing a home magazine and drawing.

Sodality, Debating, Intramural Sports.

IYAD KAMIL

اياد كامل عبد الاحد

My five years at Baghdad College have been happy, profitable years. I gained many friends among the Fathers and students. English and Biology labs are the subjects I liked. All sports interested me, but football and basketball were my favorites. I spent my free time at home in reading and listening to music. My hope is to be a successful petroleum engineer.

Debating Society, Intramural Sports.

IYAD PHILIP

اياد فيليب بشارة

Biology, Physics and Geometry were the subjects which appealed most to me. My favorite sports were handball and football, but reading scientific books and magazines gave me keen enjoyment. My interest in studies promises success in the medical field.

Sodality.

JA'FAR AL-RIKABI

جعفر علي حيدر الركابي

Although a late-comer to B.C., I benefitted from the opportunities it offers. I took part in various activities, had a go at sports, found many friends, and most important of all, I managed to gain some learning. Swimming, music, sketching, and reading were my hobbies. I hope to specialize in a technical branch of Physics and Math, my favorite subjects.

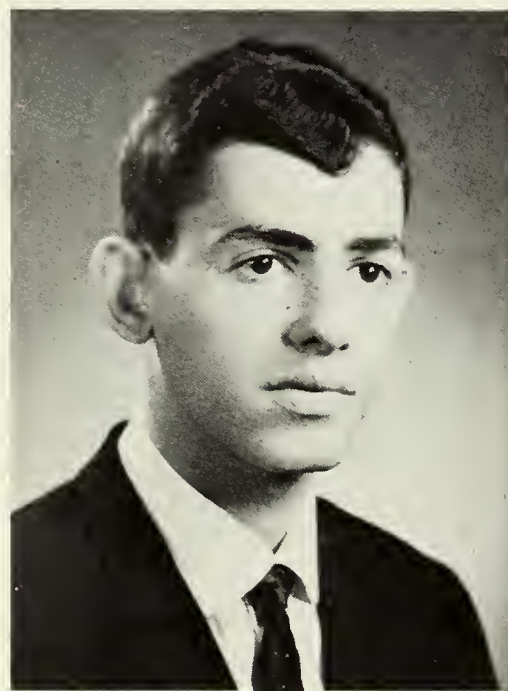

"Al-Iraqi" Staff, Scientific Academy, Mathematics Academy, Intramural Sports.

JAMIL BABAN

جميل بابان

As I entered Baghdad College, I realized that I was entering a world of education. I was interested in Physics and Chemistry and found the Fathers and the students very helpful friends. At home, I enjoyed listening to soft music. My ambition is in the field of architecture.

Scientific Academy, "Al-Iraqi" Staff, Intramural Sports.

JAMIL YAQUB

جميل يعقوب ماريا

During my scholastic years at B.C. which I'll keep in memory, I gained plenty of friends as well as knowledge. I always enjoyed sports and played football and volleyball. I was and still am a member of the Sodality. I liked Physics and Mathematics very much and I'm looking forward to a career in engineering.

Sodality, Intramural Sports.

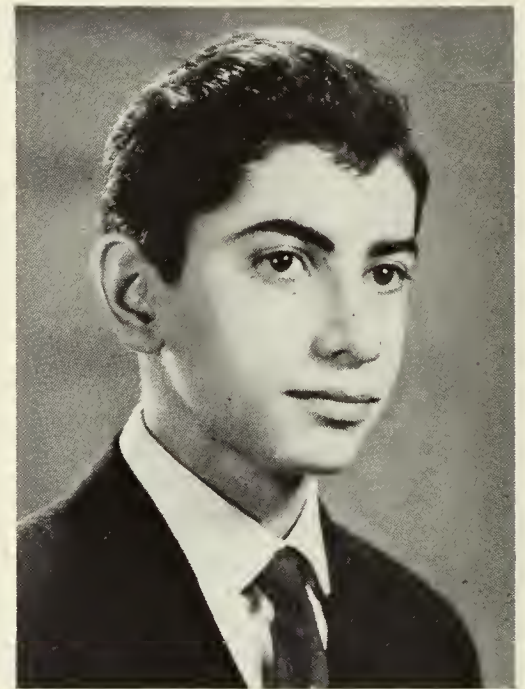

JIBRAIL ISHU

جبرائيل ايشو

I have been very impressed by Baghdad College and its rules. During the five years of my studying here, I enjoyed sports, especially basketball which I made my favorite game. I am particularly interested in Biology, Chemistry, Physics and Geometry. This will enable me to follow a career in medicine.

Intramural Sports.

JOHN BUTROS

جون بطرس

I enjoyed the happy and co-operative life at B.C., which allowed me to gain many good friends. My favorite subjects were Biology, Chemistry and Physics. I spent my free time listening to music and watching our exciting basketball games. My interest in the above subjects opens a wide gateway to the future study of medicine.

Sodality, Intramural Sports.

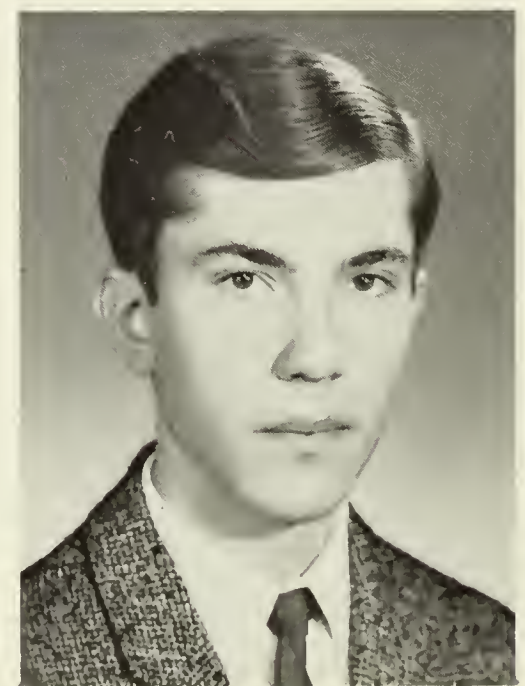

JUAN ROCA

جان روکا باناك

At B.C. I displayed a cheerful and friendly character among my friends. I enjoyed playing basketball and baseball. Off campus I spent my leisure time listening to music and swimming. Physics, Mathematics and laboratory periods were my favorite subjects. I look forward to studying aeronautical engineering.

Debating Society, Basketball, Intramural Sports.

KHALID AL-AWQATI

خالد الاوقاتي

I tried to show myself to be a gentleman, an athlete, and a hard worker during my years at B.C. I often played basketball and in the summer enjoyed swimming. My interest in Physics, and Mathematics has led me to the choice of an engineering career.

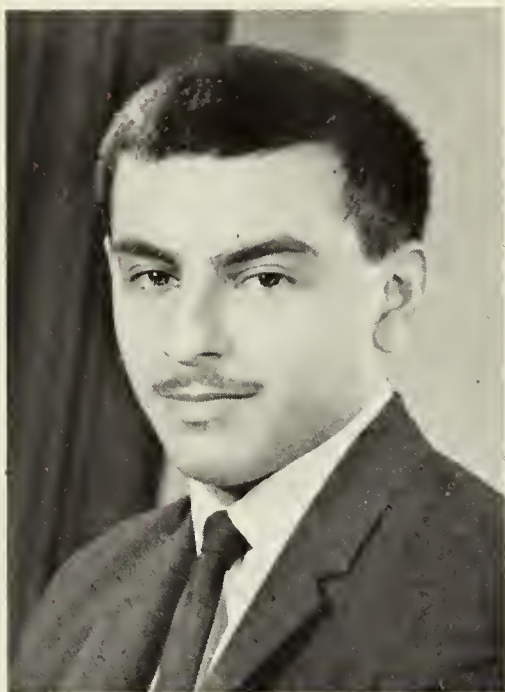

Mathematics Academy, Debating Society.

KHAYAL RAFIQ

خيال رفيق

Five happy years have passed since I entered Baghdad College. It made me love Chemistry and Mathematics, so I have chosen chemical engineering as a profession in the future. I liked playing handball and "frisbee" but I like reading best, especially chemistry books from the school library.

"Al-Iraqi" Staff.

LAITH ABDUL-SATTAR

ليث عبد الستار عبد العزيز

One thousand and two hundred days I spent at Baghdad College. It was hard work, especially in my favorite subjects, English and Physics. Sports also gave me pleasure. To my fellow students I owe a great deal for their valuable friendship.

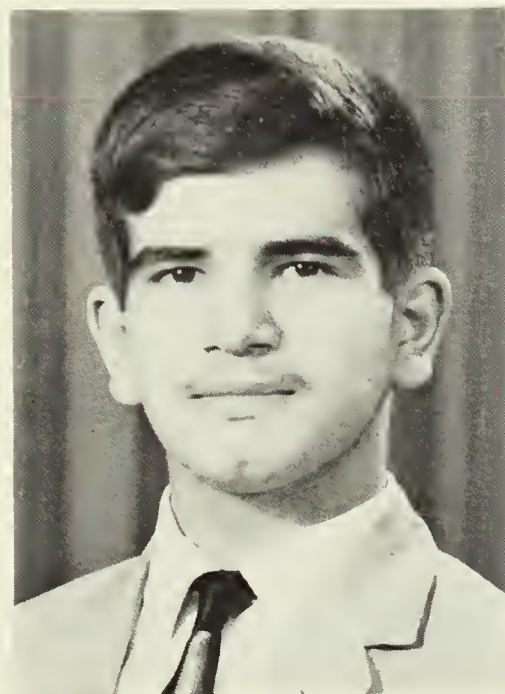

"Al-Iraqi" Staff, Debating Society, Intramural Sports.

LEO SEQUEIRA

ليو وليم سكويره

I was greatly impressed by the years I spent at B.C. Most of all, I enjoyed Chemistry and Biology lab. For relaxation I enjoyed drawing and listening to popular music. My interest in Chemistry and Biology have urged me to seek a career in medicine.

"Al-Iraqi" Staff, Sodality, Library Staff, Intramural Sports.

MAAN KANNUNA

معن كنونه

I found many friends during my stay at B.C. After school I liked playing football, and at home reading occupied my time. Being interested in Mathematics and Chemistry, my future is directed toward studies in chemistry.

Intramural Sports.

MAHMUD SHAKIR

محمود شاكر الجبوري

I learned many things during my stay at Baghdad College and gained many friends. While Math was my favorite subject, I found Biology lab always exciting. Correspondence, music, reading and travel I found interesting during my free time. For the future I am planning on engineering.

Mathematics Academy, Scientific Academy, Debating Society.

MAJID BAHNAM

ماجد بهنام الطويل

I enjoyed both science and fun at old Baghdad College. I was interested in science especially in Physics, Biology, and Mathematics. I also played handball and volleyball. My free time was equally divided between sleeping, music and poetry writing. My interest in people leads me to be a psychologist.

Sodality, Library Staff.

MAZIN ABBOUDI

مازن عبودي

It has been a magnificent five years I have spent at B.C. Biology, English and Chemistry were the subjects which I found most interesting. For my leisure time I enjoyed playing football, chess and going swimming. I found much recreation in reading stories and listening to music. I hope to find my future in medicine.

Debating Society, Intramural Sports.

MELVIN GOODSIR

ملفن كودسر

Tending to be quiet and reserved, I am fond of listening to popular music. I like reading books about mechanics and famous characters. Hunting and playing table tennis are my favorite sports. My interest in mechanics leads me to go abroad to study mechanical engineering.

Mathematics Academy, Library Staff.

MUAYYAD LOUIS

مؤيد لويس

One of the strong, silent type, I hope to prove that still waters run deep. Football was my favorite sport but I indulged in many sports enthusiastically. Off campus I enjoyed playing chess and listening to music while reading detective stories. I will strive for a degree in economics.

Intramural Sports.

MUDHAR SHAWKAT

مضر غسان شوكت

Most of all I liked to make friends at B.C. In sports, I enjoyed swimming, basketball, baseball and tennis. For relaxation I played records and did general reading. Liking Mathematics and Physics, I hope these will aid me in my study of business administration.

Debating Society, Intramural Sports.

MUHALLAB ABDUL-HAMID

مهلب عبد الحميد الهلالي

I enjoyed my years at B.C. and found any kind of laboratory work very exciting. My leisure time at home was spent mostly in reading or listening to music. In sports I liked volleyball and swimming the most. I hope that my interest in scientific subjects will lead me towards a career in medicine.

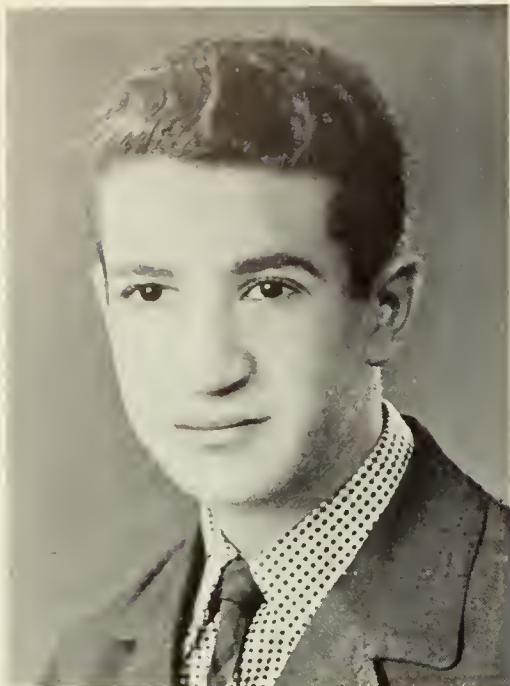

MUHAMMAD AL-GAILANI

محمد برهان الكيلاني

The five years I spent at Baghdad College were years of great value and much experience. I enjoyed reading scientific stories and spent many hours in the laboratories of Chemistry and Biology. Outside of school duties I occupied myself in listening to music and watching ball games.

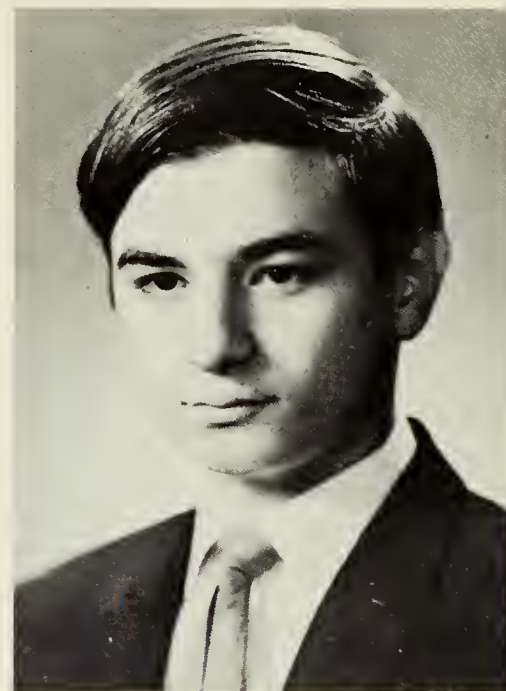

Debating Society, Scientific Academy, Intramural Sports.

MUHAMMAD AL-QAYAM

محمد رضا القيم

The five years I spent at B.C. were the most pleasant ones of my school life. I will always keep in my heart happy memories of these days. Lab periods were my favorite classes. Sports occupied my free time at school, while at home I spent my spare hours in listening to music. My interest in Physics and Math may lead me to a career in engineering.

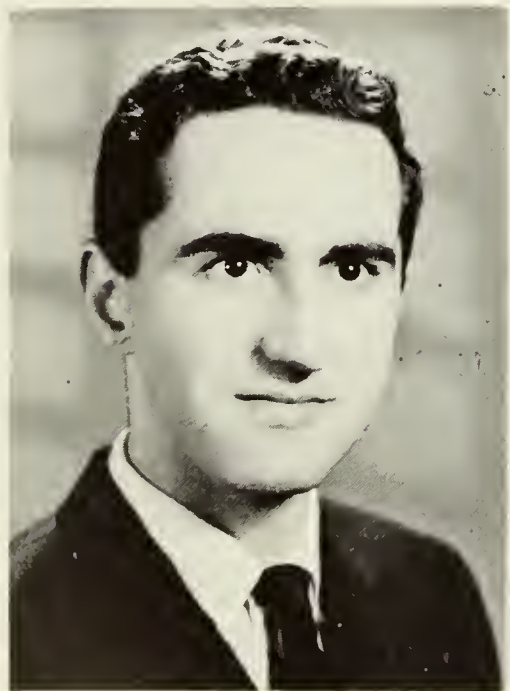

MUHANNAD HILMI

مهند حلمي عبد الوهاب

During my years at Baghdad College I enjoyed Physics and other scientific subjects. Outside class I liked playing tennis in addition to the other sports, such as football and baseball. My ambition is to be a cardiac surgeon.

Intramural Sports.

MUNIR AL-KATANI

منير يوسف الكوتاني

The most enjoyable activities for me at B.C. were the experiences that I obtained in the different societies which are provided for the students. The main sports that I played were baseball and football. My interest in Physics, Chemistry and Mathematics may lead me to be a physicist.

Mathematics Academy, Sodality, Intramural Sports.

MUNIR FADHIL

منير فاضل عون

My favorite subjects were Chemistry and Mathematics. I was able to play any sport, but football was the most enjoyable. Outside school, I was greatly interested in swimming and working in my chemistry lab. I have not yet decided on a future field of study.

Bus Prefect, Scientific Academy, Debating Society.

MUNIR KUBBA

منير صالح كبة

During the five years I spent at Baghdad College I enjoyed playing tennis, football and handball. In leisure time I enjoyed reading books and watching exciting football and basketball games. In school my favorite subjects were Biology and Chemistry. I want to study medicine.

Mathematics Academy.

MUNJID QATTAN

منجد عبد الرحمن القطان

Looking back at the years I spent in B.C., I find that I had a most useful and enjoyable time both in the classroom and on the field. I was interested in Biology and Physics, while handball was my favorite game. I would like to be a doctor.

"Al-Iraqi" Staff, Library Staff, Scientific Academy.

MUNTHAR ARIS

منذر انطوان عريس

At Baghdad College I made many wonderful friends among my classmates and with them I had a marvelous time. I must thank my teachers for their honest efforts in their work. Besides studies, I enjoyed tennis, basketball and handball. Since Chemistry is my favorite subject, I want to pursue it further.

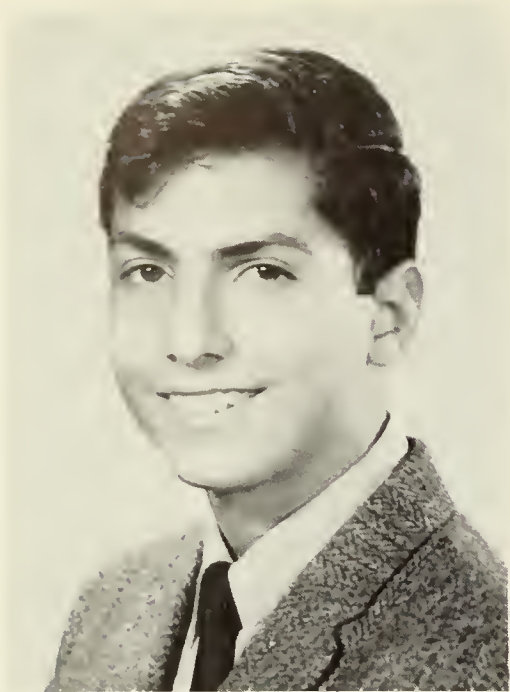

Sodality, Debating Society.

MUTA' ISMAIL

مطاع اسماعيل الامين

I enjoyed my five years at Baghdad College with my friends. Mathematics and English were my favorite subjects. I enjoyed playing football and baseball. For relaxation, I liked to watch T.V. and read books. I hope to be a doctor with God's help.

NABIL AL-OBOUDI

نبيل العبودي

I'll always remember the five years I spent at B.C. and the wonderful Fathers, friends and education I found there. My favorite lessons were Math, Physics and English, while in sports I preferred football and swimming. Outside school I spent my time meeting all kinds of people and experiencing life. I hope to be an engineer.

Debating Society.

NABIL AL-TAWIL

نبيل غانم الطويل

I found great pleasure in Biology and Physics, so their labs were interesting for me. I enjoyed watching ball games, especially football, baseball and handball. Outside school I spent my leisure time playing chess and reading scientific books.

Mathematics Academy, Sodality, Bus Prefect.

NABIL MICHAEL

نبيل ميخائيل حسو

My five years at B.C. were invaluablely profitable. Chemistry, Physics and Biology were my most interesting and exciting subjects. As for my leisure time, I spent most of it reading scientific books. Handball, chess, and ping-pong occupied the rest of my time. My interest in Chemistry and Biology may lead me to medicine as a field of endeavor.

Debating Society, Intramural Sports.

NABIL QASTANTIN

نبيل قسطنطين فتوحى

During my five years at B.C., I enjoyed playing volleyball and watching baseball. Outside school I liked swimming and music. My favorite subjects were Biology, Chemistry and Mathematics. I hope to be a doctor or an engineer.

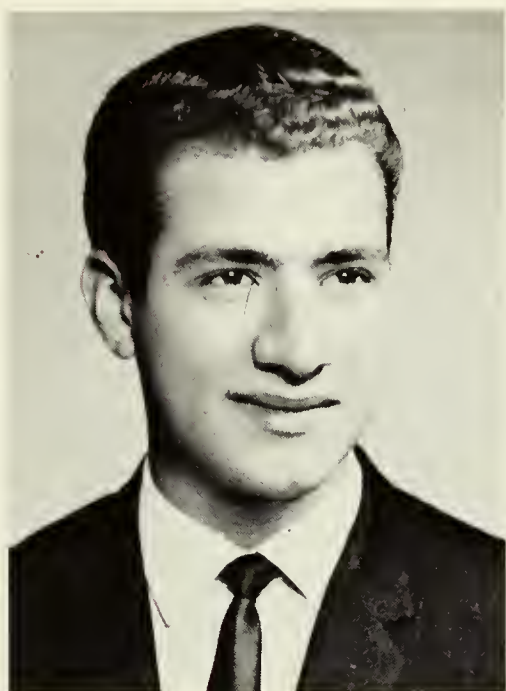

Scientific Academy, Debating Society, Intramural Sports.

NABIL TOMA

نبيل سليمان توما

At Baghdad College I enjoyed all sports, although tennis and swimming were my favorites. I was fond of Biology lab and was also interested in Chemistry. To relax I used to listen to modern music and read magazines. For the future, I think my studies at Baghdad College have prepared me to be an aeronautical engineer.

Debating Society, Intramural Sports.

NABIL WADI

نبيل وديع زيا

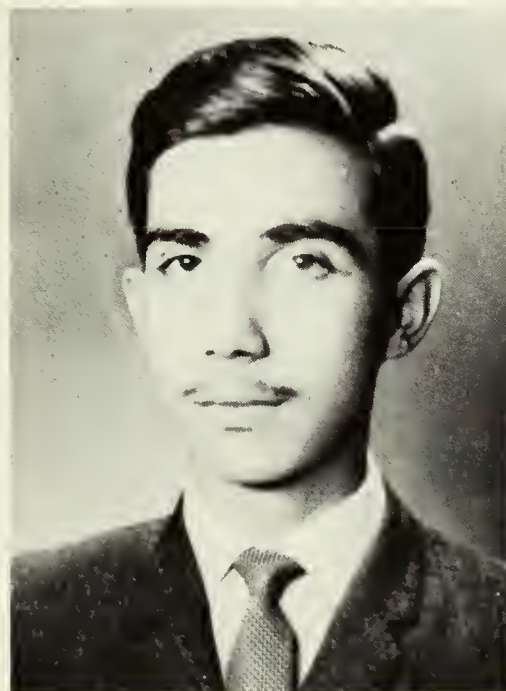

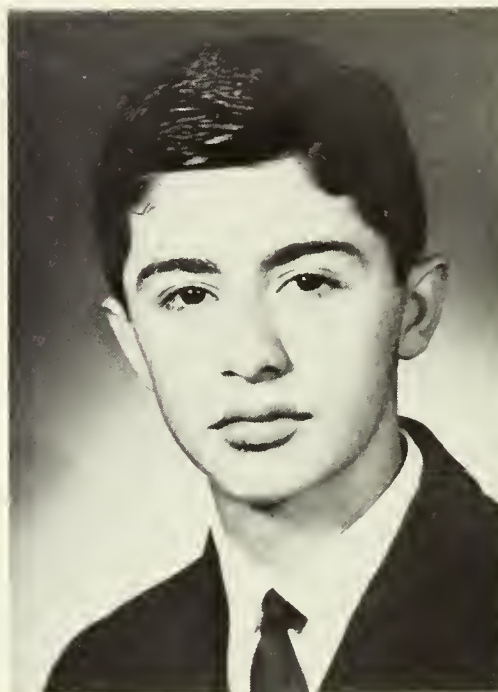

I spent my five years at B.C. with full pleasure and enjoyment. I liked all sports, especially track, volleyball and handball which I often played at school. I also liked to walk and listen to the songs of birds at school. I was interested in Biology and Chemistry, as well as Math. I hope to be a doctor.

NADIR FARAJ

نادر فرج نعيم

During the five years I spent at Baghdad College, handball, ping-pong and football were the sports I enjoyed most. I was very interested in Physics, Mathematics, and religious subjects. I have chosen a career in engineering.

Sodality.

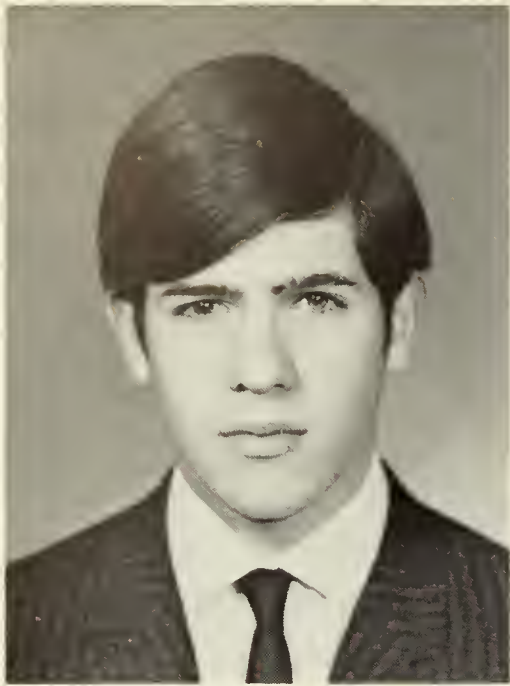

NAJIB ANWAR

نجيب انور نجيب

My time at Baghdad College was divided between studying and sports. My main interest in school was Mathematics, Physics, and Chemistry. In my spare time I enjoyed swimming and playing tennis. My goal in the future is to become a chemical engineer.

"Al-Iraqi" Staff, Library Staff, Bus Prefect.

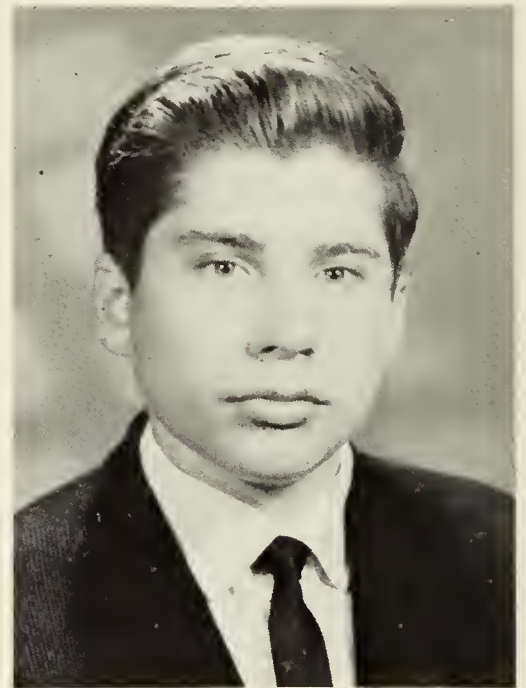

NAMIR AL-DAMALUJI

نمير فيصل الدملوجي

I thoroughly enjoyed my five years at B.C. I was mostly interested in Math and Chemistry, and, being an athlete, I indulged in all the sports, my favorite being tennis. Music and stamp collecting are my hobbies. I will always remember the friendly guidance of the Fathers.

Mathematics Academy, Debating Society, Intramural Sports.

NAMIR SHAFFU

نمير جورج شفو

I shall cherish and remember the years I spent at Baghdad College. After graduation it is very possible that I will enter either medicine or engineering. At home I listen to music during my hours of study and on the campus I enjoy playing handball.

Sodality.

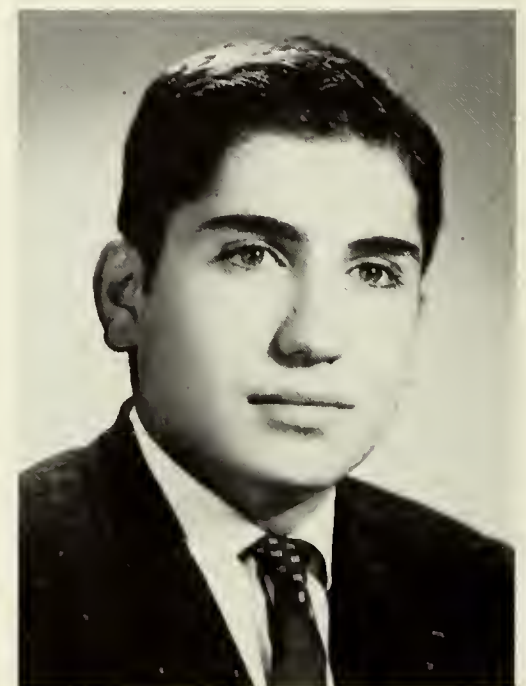

NAZAR AMSO

نزار نجيب عمسو

The past five years at Baghdad College have been very enjoyable. During school hours I liked playing sports and teaching the workmen's children. Outside school hours I liked reading and watching football games. My interest in Physics, Chemistry and Math leads me to a career in engineering.

Mathematics Academy, Sodality, Scientific Academy, Debating Society.

NAZAR NAUM

نزار نعم كجي

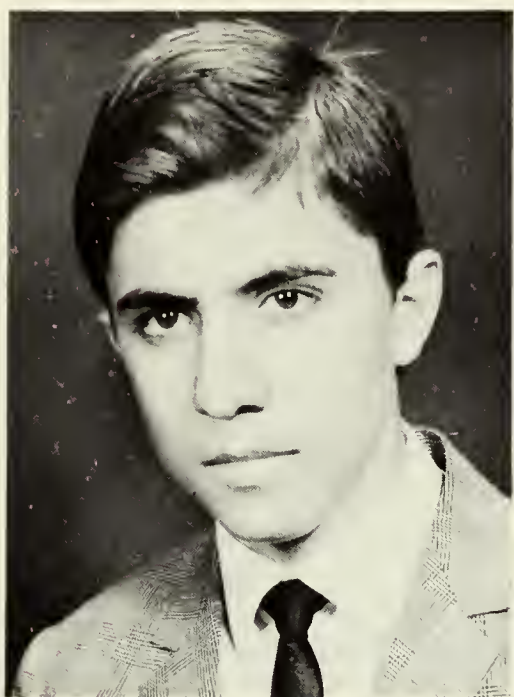

Through the years of my stay at Baghdad College I made many friends among the Fathers and students. Football and volleyball were my favorite sports. In leisure time I enjoyed traveling and listening to music. I liked Mathematics and Physics, as well as English, which will help me to get a degree in engineering.

Mathematics Academy, Debating Society, "Al-Iraqi" Staff, Sodality.

QAIS DAKKAK

قيس دقاق

Humorous, pleasant, affable, and high-spirited, I made life-long friends at B.C. I was an enthusiastic football and tennis player. In my spare time I enjoyed listening to music and reading adventure stories. My interest in Biology predicts a medical career.

QAIS MAROGI

قيس مروكي

The subjects which I found most interesting were Zoology and Physics. I spent my leisure hours playing football. Watching basketball games occupied the rest of my time, even though I am not myself a good player. With the help of God, I hope to be a doctor.

Scientific Academy, Debating Society, Intramural Sports.

QURAIISH FAZI

قريش فاذع فجر

These five years at Baghdad College have been a tremendous experience for me. I was completely absorbed in the Chemistry classes and laboratory periods. At school I enjoyed playing football and handball. Outside I liked to listen to music. In the future I hope to make a career in engineering or music.

Library Staff, Intramural Sports.

QUTAIBA AL-KHALIDI

قتيبة محمد الخالدي

Throughout the splendid years that I have spent at Baghdad College, I have enjoyed all the scientific lessons, as well as Arabic. I found that work in the labs was fascinating. I liked all sports, especially football, handball and swimming. My hobbies and desires might lead me to engineering or to the air force.

Mathematics Academy, Debating Society, Intramural Sports.

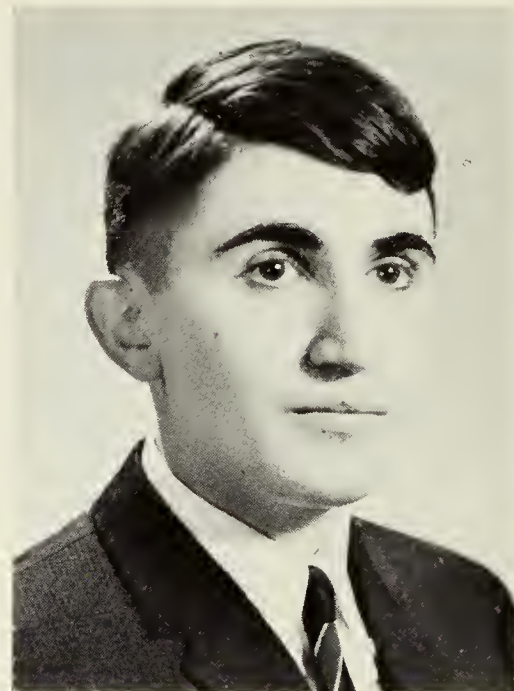

RAAD ABDUL-WAHID

رعد عبد الواحد العزاوي

During the five years which I spent at Baghdad College, I gained many friends among the teachers. My favorite subjects were Biology and Chemistry. I was interested in playing football and handball. Outside school I enjoyed writing poems. I hope to be a military doctor.

Intramural Sports.

RAAD HABIB

رعد حبيب هرمز

My years at B.C. have been a significant experience. The knowledge I gained from Physics and Mathematics, my favorite subjects, led me to many scientific accomplishments. My leisure time was spent in reading scientific books, making scientific models and listening to some of Father Gerry's classical recordings.

Mathematics Academy, "Al-Iraqi" Staff, Sodality, Scientific Academy.

RAAD JAMIL

رعد جميل شابو

I enjoyed almost all subjects, especially Biology and Physics. My favorite sports were handball and football. For me Baghdad College is the light which leads to a meaningful life. I plan for a future in medical school.

Sodality, Debating Society.

RAAD SADIQ

رعد صادق جلال

I enjoyed my five years at Baghdad College and the many friends which I made there among the students and Fathers. At school I enjoyed tennis, handball and chess; while at home I spent my leisure time doing scientific projects or reading scientific books and magazines. Physics and Mathematics were my favorite subjects and will help me in my study of electrical engineering.

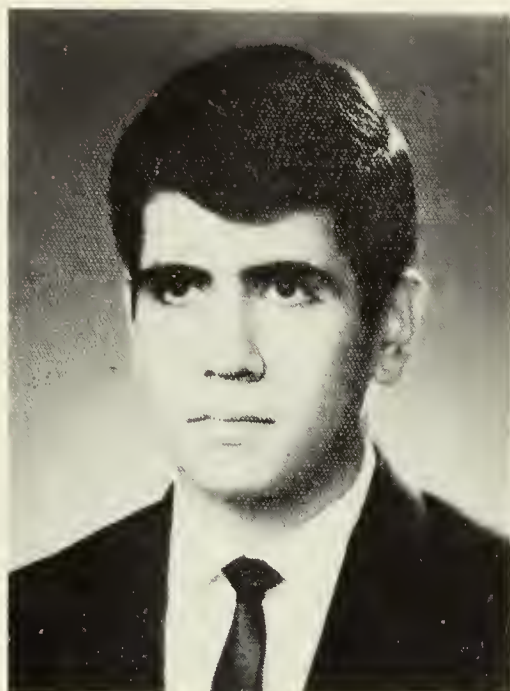

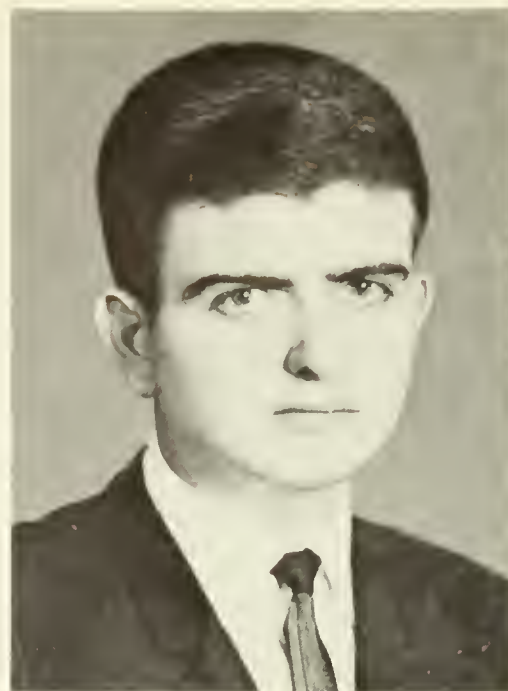

Debating Society, Scientific Academy.

RAAD YUSUFANI

رعد اسطيفان يوسفاني

I found Biology, Chemistry and English my favorite subjects. In school I liked to play tennis and baseball. Off campus, listening to music, reading novels, and collecting stamps occupied my leisure time. An interest in the sciences and lab work will aid me to become a doctor in the future.

Mathematics Academy, Sodality, Scientific Academy, Debating Society.

RAIBIR SADIQ

ريبر صادق بهاء الدين

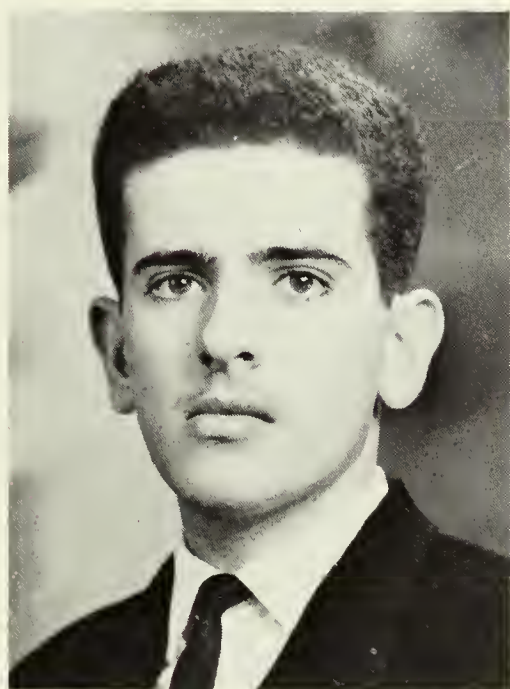

During my five years at Baghdad College I have learned much in science. I was ready to play any sport but my favorites were football and basketball. Listening to music and reading scientific books took up most of my free time. My ardent interest in Physics, Biology and Chemistry will aid me in my future study of medicine.

Intramural Sports.

RAID AL-DABBAGH

رائد خيري الدباغ

Throughout five joyful years at Baghdad College I met and made many faithful friends. Outside the classroom I spent most of my time watching all kinds of sports. Photography and swimming were my hobbies. I found Physics, Chemistry, and Biology labs my favorite subjects. My aim is to be an electrical engineer in the future.

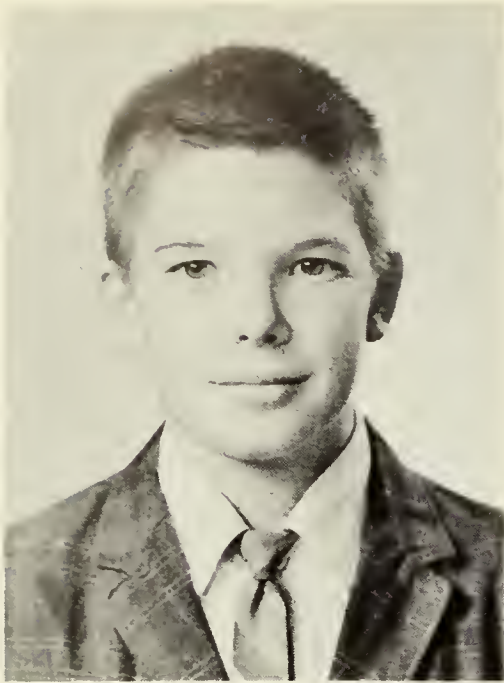

RIADH JAZRAWI

رياض جزراوي

The subjects which I liked most were Mathematics, Physics and Chemistry. In my free time I spent many hours reading scientific books and solving mathematical problems. Handball and football were my favorite sports. Outside school I enjoyed chess and literary books. In the future I look forward to a career in electrical engineering.

Mathematics Academy, Sodality, Bus Prefect.

RICHARD MEYER

ريشارد ماير

During the two years I have spent at Baghdad College I have enjoyed the opportunity to study with Iraqi boys and to learn something of the Arabic language. While here I have developed an interest in the sciences, especially Biology and Chemistry. I enjoy basketball, tennis and swimming, and I play the guitar for relaxation.

ROBERT JOHN

روبرت يوحنا ميخائيل

Physics and Biology were my favorite school subjects. I also enjoyed collecting coins and stamps as hobbies. Football was my favorite sport at school; outside I liked to listen to music. My plans are uncertain, but I will continue to study.

Sodality, Bus Prefect, Debating Society, Intramural Sports.

SAAD JABAJI

سعد فهد جبيجي

During my years at Baghdad College I made many friends. My favorite subjects are Mathematics and Physics, which will lead me to architecture. For relaxation I enjoy listening to various kinds of music. In my spare time I like to read mathematical books.

Mathematics Academy, Sodality, Library Staff, Debating Society, Scientific Academy.

SAAD TAWFIQ

سعد شاكر توفيق

During my wonderful years at Mother B.C. I admired most the campus and the scholastic climate. Among my studies I liked Physics and Chemistry. I found great pleasure in basketball and baseball. Away from studies I enjoyed myself with my favorite hobby, electronics. I hope for a degree in electronics.

Mathematics Academy, Scientific Academy, Debating Society, Basketball, Intramural Sports.

SAAD WAZIR

سعد وزير

During my five years at Baghdad College I made many friends among the Fathers and students. I enjoyed all sports, but football was my favorite. My best subjects were Physics and Chemistry. In the future I hope to find success as an engineer.

Intramural Sports.

SAAD ZANAD

سعد زناد

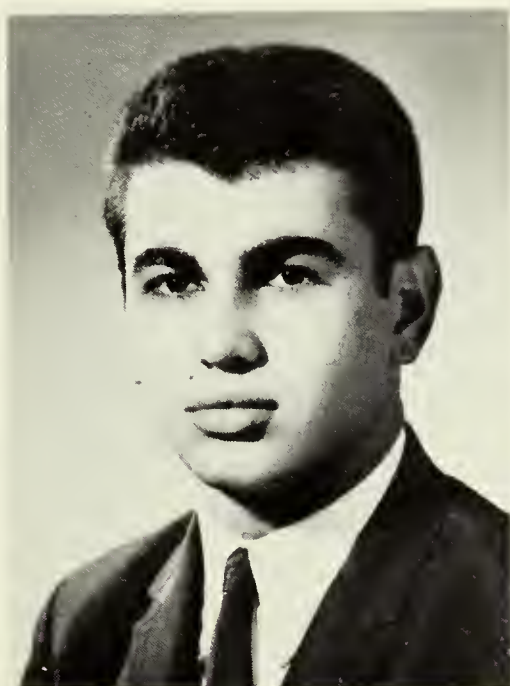

These five years at Baghdad College have been good years in my life. I was amazed that Physics and Chemistry laboratories could be so absorbing. When not at school, I liked sports and frequently played football. Reading is another of my interests.

SABAH ABDUL-QADIR

صباح عبد القادر وهي

It has been my constant desire to form as many friendships as possible during my five years at B.C. I was entirely involved in my class work, especially Arabic, Mathematics and Chemistry. When off campus, I devoted my time to boxing, hunting and driving. I have fixed my sights on a career in medicine.

Intramural Sports.

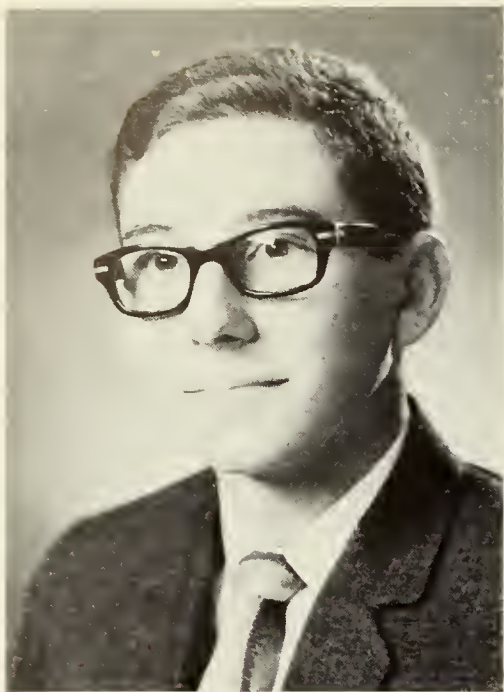

SABAH PETER

صباح بيتر جوجا

My years at Baghdad College have been exciting years, sometimes seeming long, and sometimes seeming to pass very quickly. I was dedicated to tennis, basketball and listening to music. Physics, Chemistry and Biology were my favorite subjects. I hope to be a mechanical engineer.

Mathematics Academy, Sodality, Intramural Sports.

SAID NAMIQ

سعيد حازم نامق

Listening to classical music became one of my favorite hobbies while at B.C. I enjoyed sports, especially tennis and swimming. Because of my interest in Physics and Biology, my future studies will be either in medicine, or in engineering.

Mathematics Academy, Debating Society, Intramural Sports.

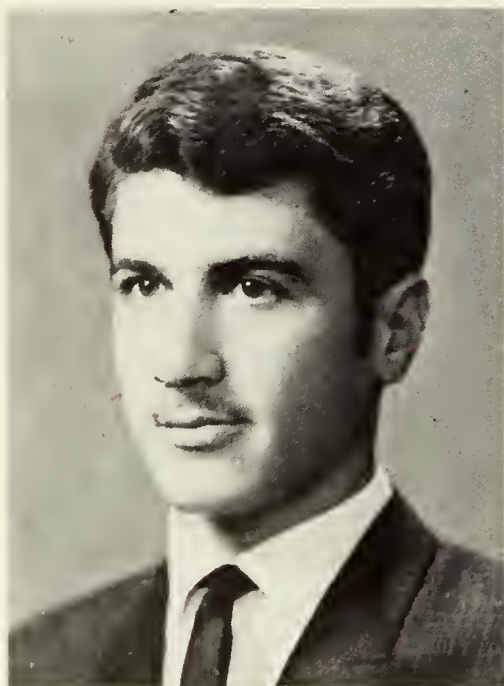

SALAH ELIA

صلاح ايليا نعمان

Five years ago I entered Baghdad College as a young boy who didn't know much about science and life. But now, with the great help of my teachers, especially the Fathers, I am completely changed, especially in my manners. At home I devote much time to body-building, and weight-lifting. I am very interested in Chemistry, Math, Botany and Physics. I plan to enter medical or engineering school.

Sodality, Intramural Sports.

SALAM AL-CHALABI

سلام احمد جعفر الجلي

It has always been my desire to make as many friends as possible during my five years at Baghdad College. As for sports, I favored baseball and football. Motion pictures, music and books occupied my leisure time. I liked Mathematics, Physics, and other subjects, but my ardent interest in Biology will aid me in my future study of medicine.

Scientific Academy, Debating Society, Mathematics Academy, Intramural Sports.

SALIM METTI

سالم متي

My five years at B.C. were fascinating years. During my leisure time my moods directed my interest to scientific books. At school, handball and football were my favorite sports. An interest in Physics, Chemistry and Mathematics promises a future in engineering.

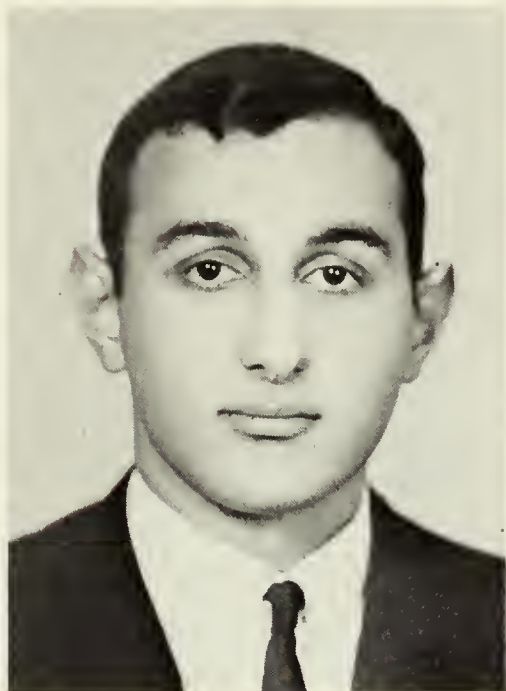

Mathematics Academy, Sodality.

SALMAN DAUD

سلمان داود كساب

During my five years at B.C. I made many friends and enjoyed playing football, one of my favorite sports. Outside school I enjoyed swimming and listening to music. I was interested in Mathematics and Chemistry, especially during the last two years. I will pursue a career in medicine or engineering.

Intramural Sports.

SAMI MARUGIL

سامي بوداغ ماروكيل

During my unforgettable five years at B.C. my strongest concern was studying. Most of my leisure time was spent reading magazines and listening to various kinds of music. Basketball and football are my favorite sports. My interest in Mathematics and Physics may lead me to a future in engineering.

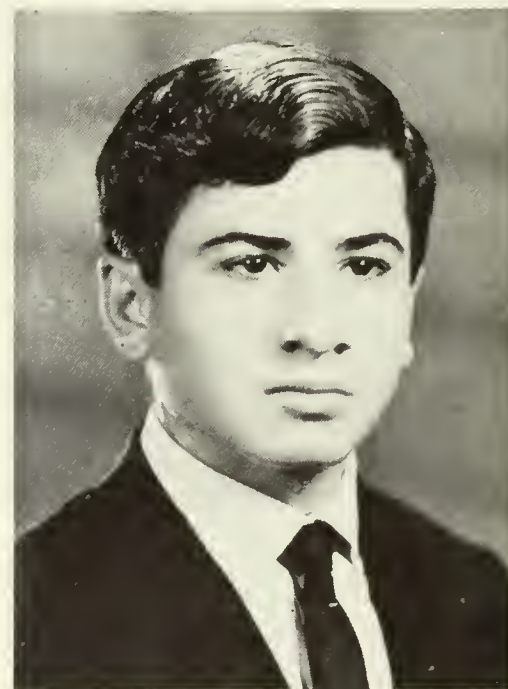

Mathematics Academy, Intramural Sports.

SAMIR NAJIM

سامر نجم عبد الله

During my five years at Baghdad College football and handball were the sports I enjoyed most. Outside of class I used to gather with other students, read scientific books or watch television. Being interested in Chemistry and Biology, I have chosen a career in medicine.

Debating Society, Science Academy, Intramural Sports.

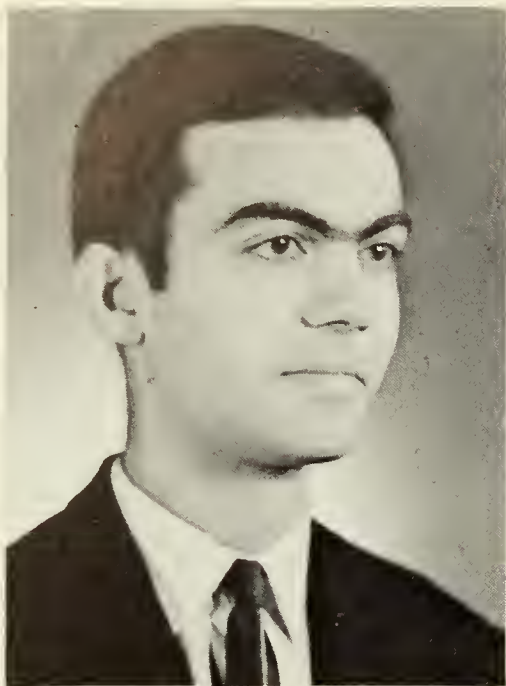

SARKIS FRAIDUN

سرکيس فريدون ابراهيم

During my five years at Baghdad College I made many real friends. I was a faithful member of the Sacred Heart League. I enjoyed playing football and tennis. My favorite subjects were Math, English and Biology with its magnificent lab. My goal is to become either an electrical or architectural engineer.

Sodality, Debating Society, Intramural Sports.

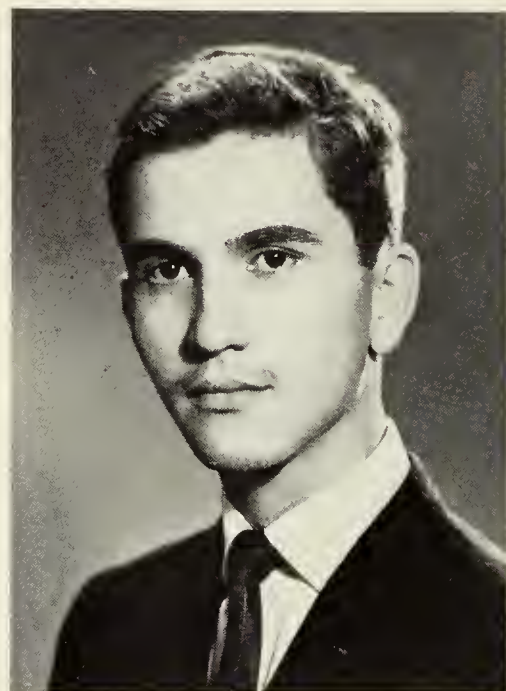

SARMAD KAKA

سرمد جورج كاكا

Though my years at Baghdad College were greatly occupied with studious work, they contained much joyful excitement, friendship and knowledge. Biology, Physics and Chemistry labs were most interesting and profitable. At school and off campus, playing tennis and chess and reading various books were my favorite hobbies.

Mathematics Academy, Debating Society, Sodality, Bus Prefect.

SARUK BABAN

سهرولك ظاهر بابان

I was interested in Physics and Biology, especially the laboratory work. Football and tennis were my favorite sports. I spent my leisure time reading historical and social books.

SELIM THOMAS

سليم برسي توما

During my years at B.C. baseball was my favorite sport. Off campus I enjoyed watching films and going walking. Physics, Mathematics and Zoology are the subjects I liked most. My ambition is further scientific study.

Mathematics Academy, Sodality, Bus Prefect, Scientific Academy, Debating Society.

SHAMIL AZIZ

شامل عزيز بيثون

Behind my quiet exterior appearance there lies hidden a keen and lively sense of humor. I was as often seen in the library as on the baseball field. Off campus I enjoyed reading. My interest in Chemistry and Biology has led me to choose a career in the field of pharmaceutical chemistry.

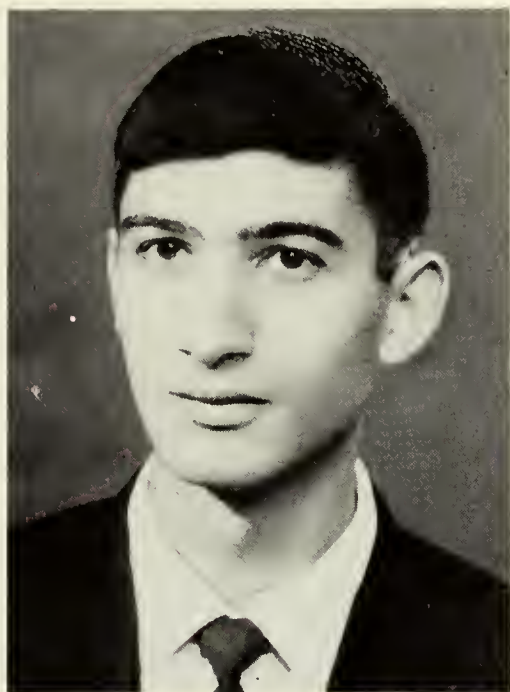

Debating Society, Intramural Sports.

SHAMUN DINKHA

شمعون دحنا قلو

I enjoyed my five years at Baghdad College very much. Mathematics, Botany and Zoology were my favorite subjects. At school I enjoyed playing football and baseball; outside I liked to listen to music. As for my future plans, I hope to make my career in engineering.

Intramural Sports.

STEVE BONIAN

ستيف بونيان

During my school years I was mostly interested in literary subjects. I also liked science and I enjoyed lab work. I found pleasure in sports and played volleyball often. Outside I made spiritual retreats, read books and listened to music. My future is in God's hands.

Debating Society, Sodality, Intramural Sports.

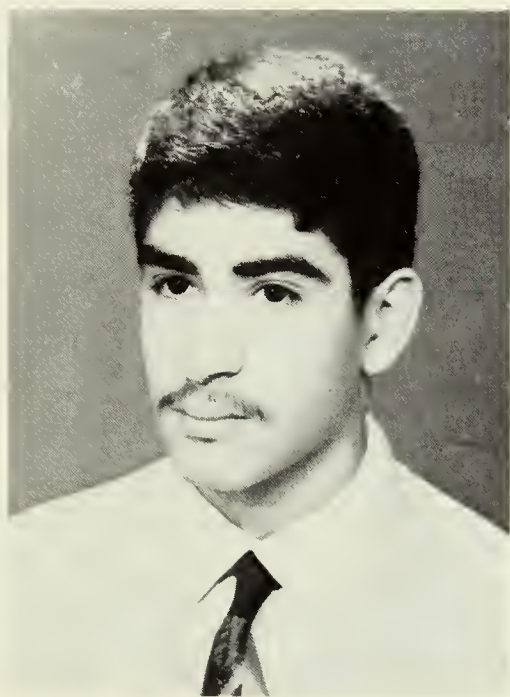

SUHAIL KHALIL

سهيل خليل عبد الواحد

During my five years at Baghdad College I won many friends, among both Fathers and students. I enjoyed various sports, mostly football. My interest in Physics, Chemistry and Mathematics may lead me to architectural engineering.

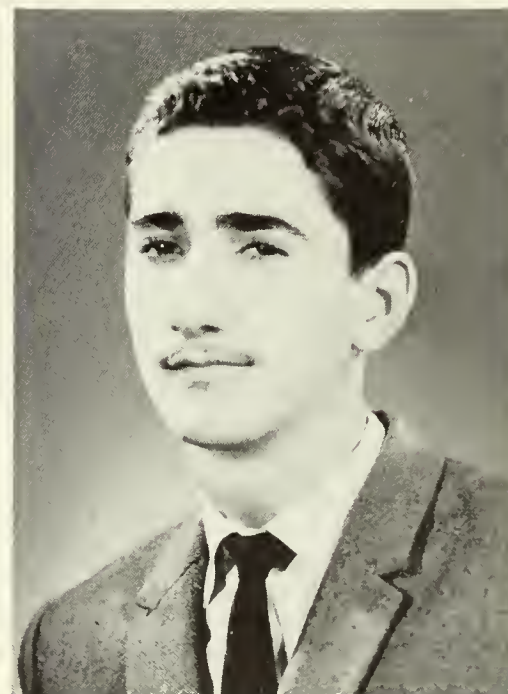

Sodality, Intramural Sports.

SULAIMAN MURTADHA

سليمان مرتضى ابو نايلة

During my five years at Baghdad College I found pleasure in Physics, Chemistry and Biology labs. I was chiefly interested in Solid Geometry and Chemistry. I enjoyed playing basketball and football. I hope to continue in the scientific field.

SURIN ZAWIN

سورين زاوين ساروخانوف

Being friendly enabled me to gain many friends among the teachers and students. Music, hunting, stamps and coins took up my free time. I enjoyed scientific subjects but I found my greatest interest in the Biology and Physics labs. I played various sports but enjoyed handball and volleyball most. I hope to find a career in medicine.

Library Staff, Debating Society, Scientific Academy, Intramural Sports.

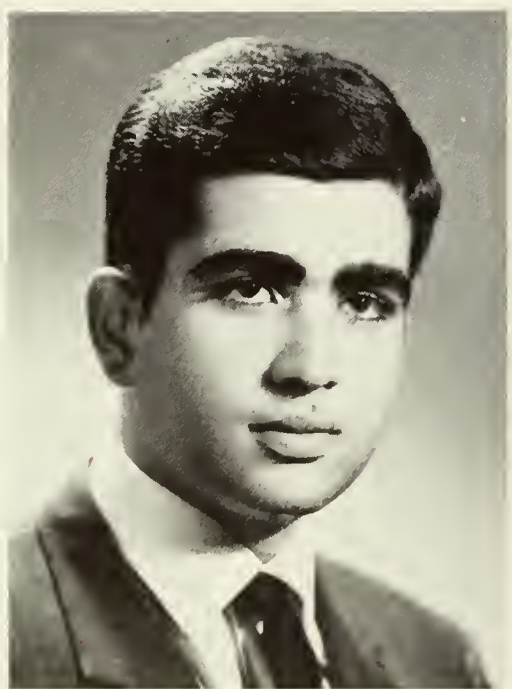

THAMIR HABIB

ثامر حبيب اسمرو

My five years at Baghdad College have been a valuable experience. I was a regular member of the Sodality. Outside class I enjoyed playing volleyball and basketball. The Physics and Biology laboratories were very profitable. My interest in Physics and Mathematics calls me to engineering.

Mathematics Academy, "Al-Iraqi" Staff, Sodality, Library Staff, Bus Prefect, Debating Society.

UMAR ABDUL-WAHAB

عمر زكي عبد الوهاب

Now that my years as a student at B.C. have come to an end, the least I can say is that they were years full of experience and pleasure. What I enjoyed most outside school was reading and listening to music, while on campus Chemistry was my favorite subject.

"Al-Iraqi" Staff, Debating Society.

USAM SALMAN

عصام سلمان يلدو

Thinking of the five years I spent at Baghdad College gives me pleasant memories. I mostly enjoyed football, handball and baseball. In class my favorite subjects were Physics and Mathematics, which will enable me to study civil engineering.

Sodality, Intramural Sports.

VARUJAN KHALIL

فاروجون خليل اكاي

During my years at B.C. I was provided with a high caliber intellectual training. I made many friends with whom I spent my free time playing football and basketball. Off campus hunting and listening to soft music were my favorite activities. Biology and Chemistry were my favorite subjects which makes me look forward to a career in medicine.

Basketball, Intramural Sports.

VICTOR ROWLAND

فكتور رولاندا ماراسيكر

I always appreciated the endeavors of our teachers to make us students the men of the future. My sports interests are in volleyball and handball. I enjoy listening to pop music when I have free time. I am interested in Physics, Biology and Mathematics. I hope to be an engineer.

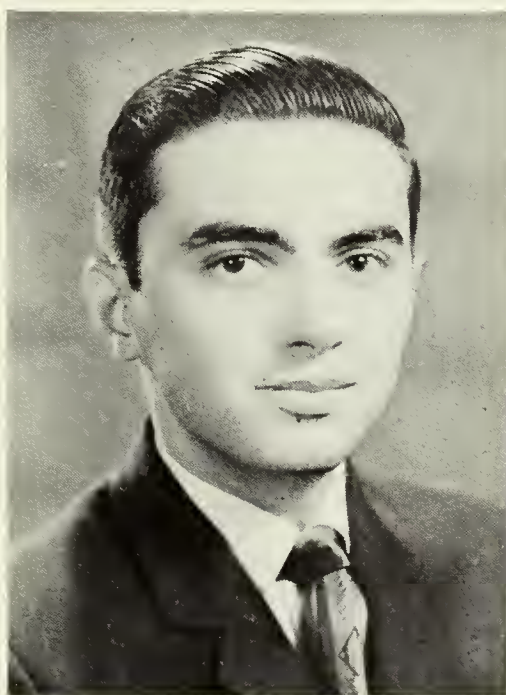

Intramural Sports.

WADHAH AL-JOUDI

وضاح شاكر الجودي

I enjoyed my years at B.C. and made many friends. In the scholastic field I liked laboratories. Football, tennis, volleyball and baseball were my favorite sports. My career is still undecided, but I would like to work in mechanical engineering.

Debating Society, Scientific Academy, Library Staff.

WADUD ABDUL-BAQI

ودود عبد الباقي

I found my years at B.C. very fruitful. I spent most of my spare time reading psychological and biological books from our well-stocked and obliging library. Occasionally I enjoyed a game of baseball or volleyball. My interest in Biology and Chemistry has led me to decide on a medical career.

Sodality, Debating Society, Scientific Academy, Intramural Sports.

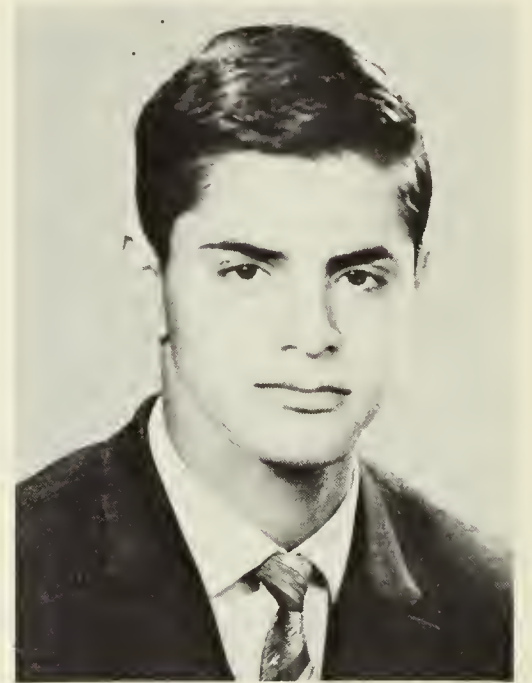

WAYIL FIKRAT

وائل فکرت شوقي

My five years at Baghdad College were a remarkable experience which enabled me to make many friends among the Fathers and students. I participated in baseball, basketball and tennis. My interest in Biology coincides with my intended career in Biology. I also enjoyed the other sciences.

Debating Society, Intramural Sports.

WAYIL RASHID

وائل رشيد مصلح

During the five years I have spent at B.C. I have made a lot of new friends. My free time was spent in playing football with those friends. I also enjoyed working in the Physics and Biology labs, because I have a special interest in practical studies. I hope to follow a medical or engineering career.

Intramural Sports.

YUSUF AL-UMRAN

يوسف محمد كاظم العمران

These years at Baghdad College have been pleasant years. My most valuable subjects were Physics, Chemistry and Biology, with their labs. During my free time I liked most to play football.

Bus Prefect, Intramural Sports.

ZAID ABDUL-AZIZ

زيد عبد العزيز

It has been a great pleasure for me to be at B.C. I admired its laboratories and found pleasure in the reports we wrote. I was happy to have been able to make so many friends. In my spare time, I played basketball, tennis and ping-pong. I hope to become a doctor.

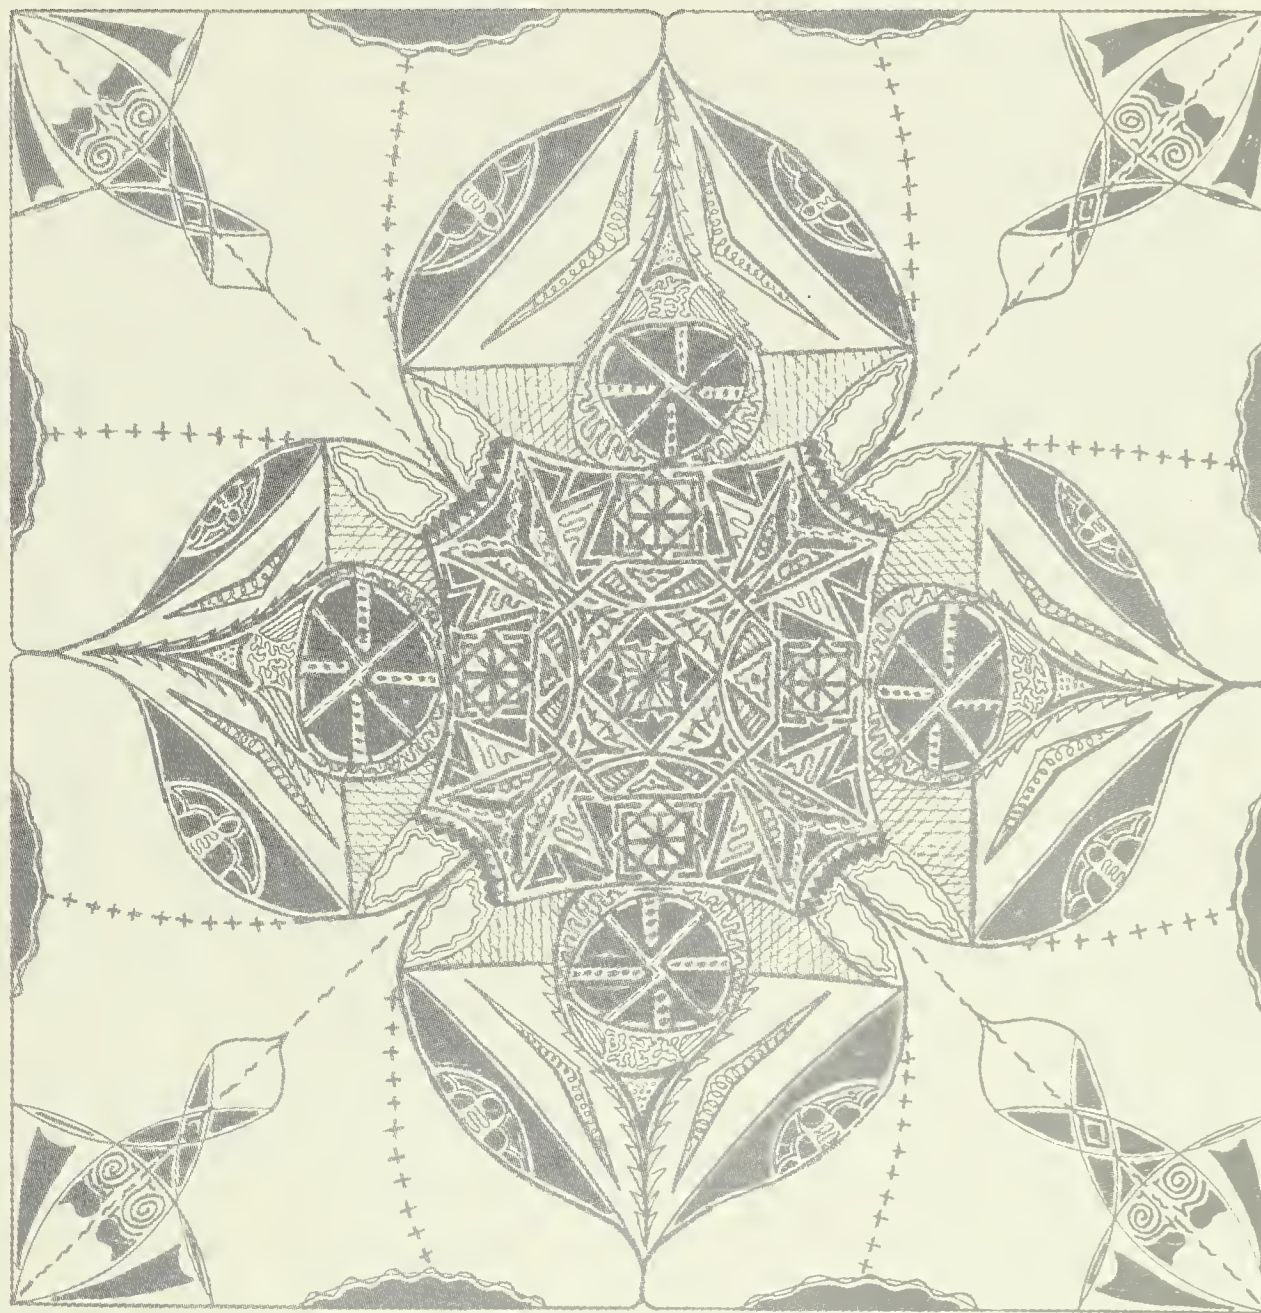

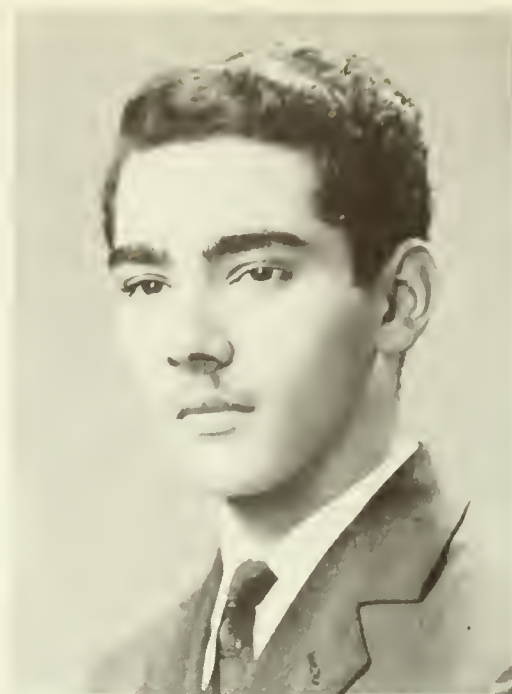

Debating Society, Intramural Sports.

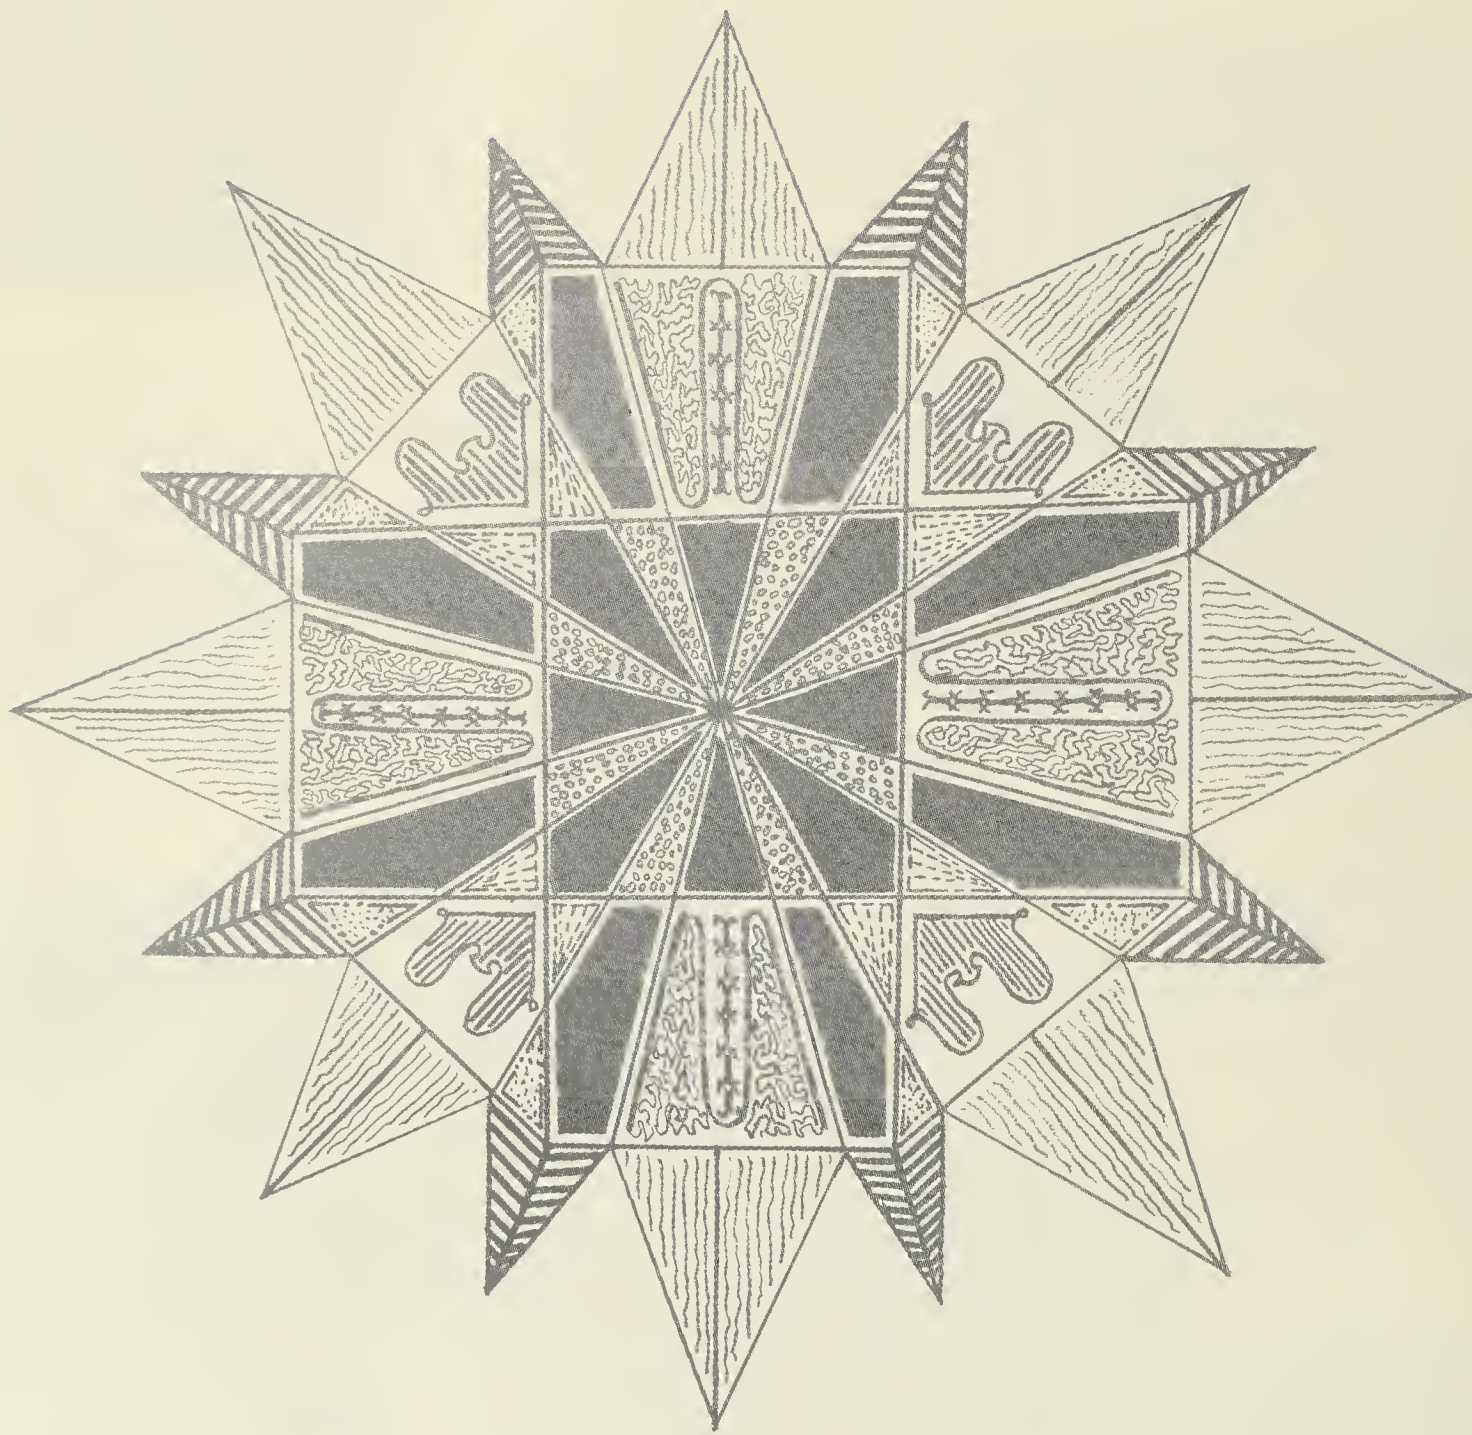

ZAKARIA YAHYA

زكريا يحيى الاعرجي

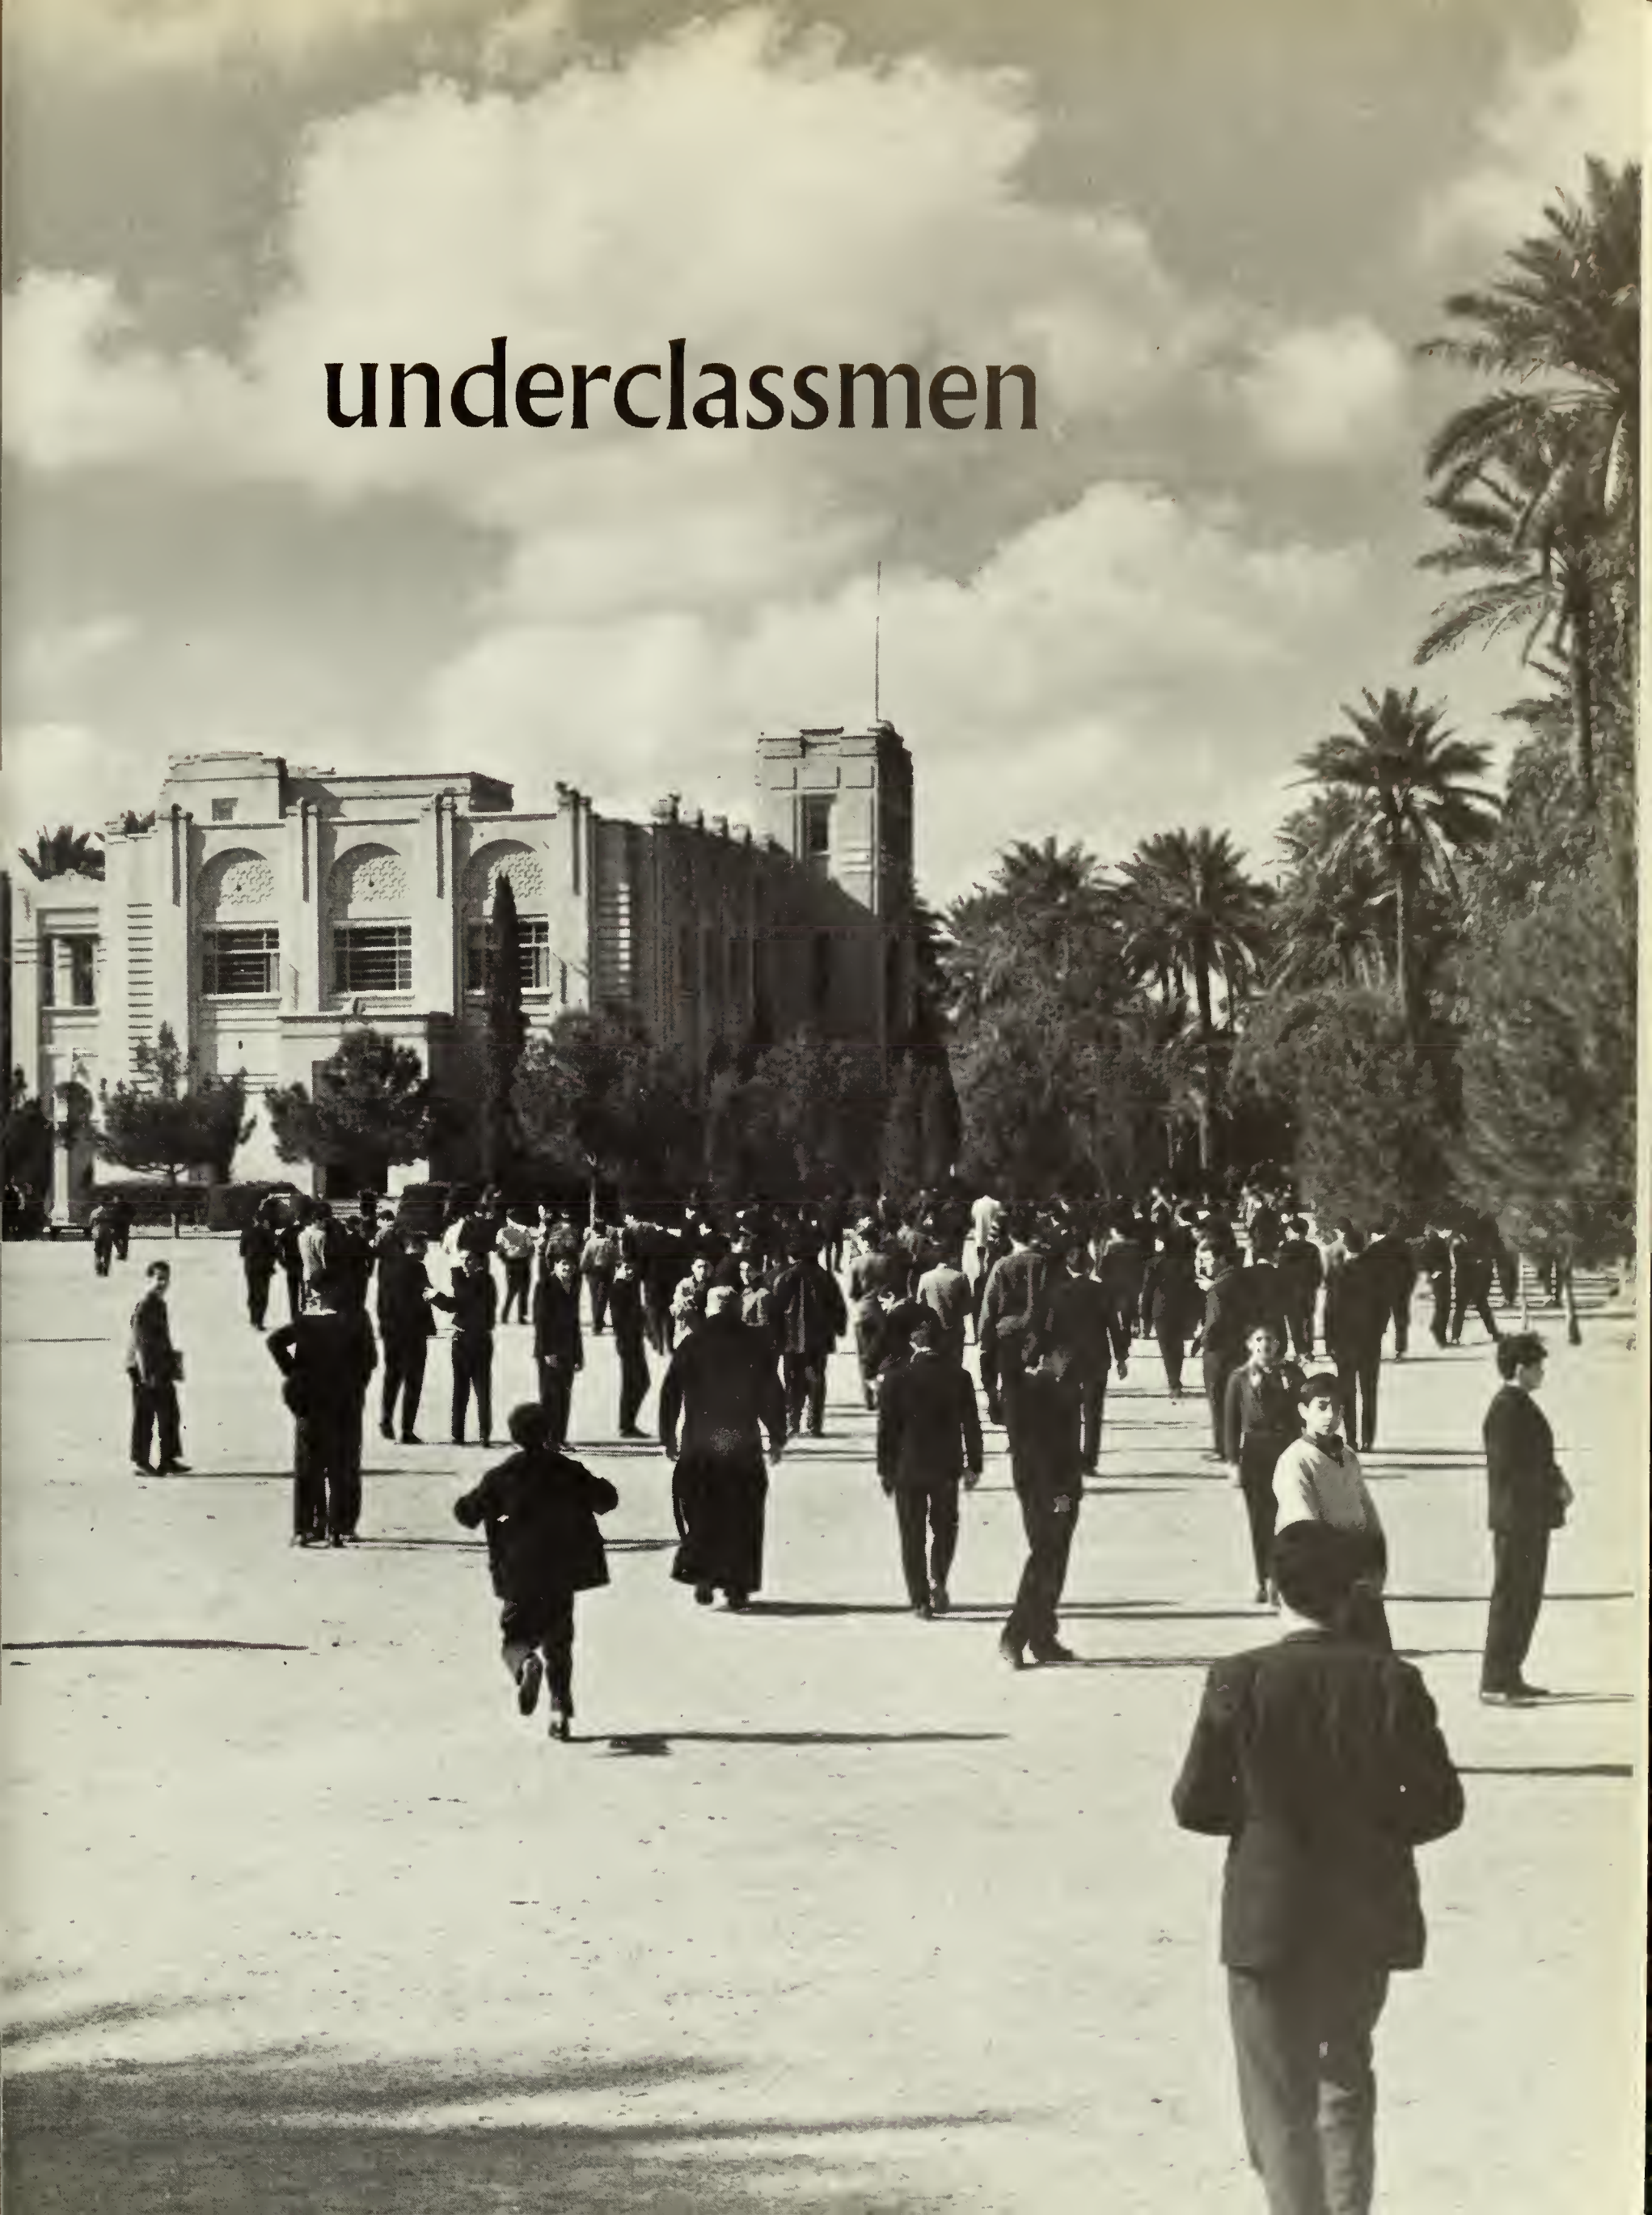

I have profited greatly from my scholastic years at B.C. When off campus, my favorite sports were handball, tennis and swimming. My enjoyment of the Chemistry and Biology labs will aid me to choose a career in medicine.

"Al-Iraqi" Staff, Scientific Academy, Debating Society, Intramural Sports.

BASKETBALL

SECONDARY BASKETBALL

Standing : (left to right) Hagop Manuel, Burhan Adil, Aladdin Burhan, Gabriel al-Bajani, Abadi Abadi, Saad Tawfiq, Mr. Kramer.

Kneeling : Vahe Kouyoumdjian, Arsham Baltaian, Juan Roca, Faraj Daud, Varujan Khalil.

The Secondary Basketball team enjoyed a successful year during the 1967-68 season, compiling an 8-6 overall record against some of the best schools and clubs of Baghdad. They placed fourth in the City Cup competition, losing only to the No. 1 and No. 2 teams in close ball games. The high-point of the season was a 58-56, double overtime, come-from-behind victory over Adhamia in the game that secured fourth place for the B.C. five. This year's captain was Arsham whose leadership, team-play, and all around ability often sparked the team to outstanding performance. Leading the team in scoring most of the season was Juan whose reputation for being a good shooter spread quickly throughout Baghdad basketball circles as witnessed by the fact that he was asked to play on the Baghdad City team. For constant hustle, and hard play, none could compare with Burhan. Never one to say die, he played every minute as if it were the last, and often would be the one to bring the team out of a tough situation. Abadi was a consistent, cool player, who could always be counted on for the important play and who scored well all season. Saad, another fine ball handler, was often instrumental in setting up key baskets. Backing up this starting team was a strong bench led by Gaby and Varujan. More than once they provided just what was needed at the right time. Sorely missed due to an early season knee injury was Vahe, but he should provide the nucleus for a good team in the next two years, backed up by Aladdin, Faraj and Hagop, all of whom gained much valuable experience this year. All in all, the school had much to feel proud about in this year's team and has good reason to look to the future optimistically.

INTERMEDIATE BASKETBALL

Second row : (left to right) Musa al-Shawi, Toma Mikha, Emmanuel Hartyun, Muhammad al-Khudhairi, Safa Hasan, Robert Joseph.

First row : Avadis Khachik, Markus Jibbu, Araz Ziad, Paris Atto, Hagop Artin, Abdulahad Daud, Iyad Yusuf.

INTERMEDIATE BASKETBALL

It was an inexperienced group of young men who lost their opening and consequently final game in the city cup play. Since then everyone has worked hard, concentrating on playing as a team. Araz has proved to be the key man, grabbing rebounds and bulling his way to the basket from his poll position. Robert Joseph's playmaking ability has made him the team's field general. Emmanuel, his partner in the background, has broken up many opposing team's plays by ballhawking, and has provided us with numerous baskets. Abdulahad Daud and Avadis have teamed up with Araz in the forecourt to provide a formidable defensive wall and a scoring threat that has given us many points. Toma Mikha, Hagop and Safa often came off the bench to give us assistance when we've needed it most. The hard work of second year men Musa and Ghassan made them the most improved ballplayers on the team, which is encouraging for next year's team. Although the team's success has been modest, it could not have been possible without the dedication and hard work of its members.

FOOTBALL

SECONDARY FOOTBALL

Standing : (left to right) Mr. Fuccillo, Raad Abdul-Wahid, Nisan Yuil, Majid Shulji, Shawkat Halabu, Faiq Qunja, Faris Naim, Adil Isa, Hrand Isa.

Kneeling : Saad Fadhil, Ali al-Zubaidi, Johnson Yuhanna, Abdul-Haq Ibrahim, Kamiran George, Philip Dawisha, Amjad Khudhir, Ahmad Walid.

The key note of the 1967-68 season was team work. The individual talents of each player blended into a colorful team that compiled a 6 and 3 record. The most memorable game will be the 6 to 1 upset victory over the Al-Hikma freshman.

Adil captained the team and led in the scoring department. His hustle and his sense of play-making engineered the well balanced forward attack. On his left was Baghdad College's own Eusebio, Ali. Ali's ability to kick well with either foot made him a formidable opponent. Faiq, an intense competitor on the left wing, complemented our right winger, Philip, whose cannon-like shot and cross field passes often tipped the opposing defense off balance. Ahmad was a versatile player who usually filled the much needed left halfback position. Hrand, on his right, never ceased to amaze all onlookers with his stamina and courage. His ball handling quickly nullified any advantage of his taller opponent and his spirit served to unify the defense and the offense.

The unsung heroes, as always, were the defensemen. Johnson spearheaded the defense in his advanced position, designed to destroy an attack before it could begin. A-Haq, our left fullback, covered a great deal of territory and his strong foot gave the defense the power to clear the ball over midfield. On the right side was Faris, who tenaciously tackled his opponents and often agilely stole the ball to set the offense in motion. In the center stood defiant Raad whose dependable playing made him the anchor of our defense. Majid and Shawkat shared the goal tending job. Majid showed greater self confidence this year and Shawkat's flashy style entertained the fans with many a dramatic moment.

Our substitutes, Nisan, Saad, Kamiran, and Amjad greatly contributed to the team's success. Nisan, only a third year student, has explosive speed and shows much promise. Limited space prevents full expression of the praise due each player.

We wish our venerable, graduating seniors good fortune in the coming years and with much of our team returning, we look forward to an impressive season next year.

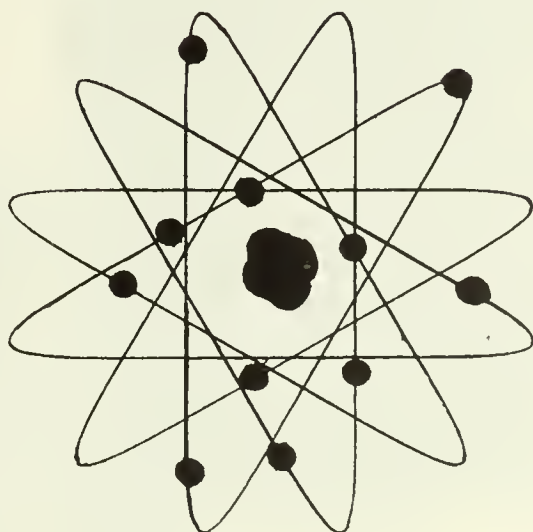

BASEBALL

ALL STAR BASEBALL TEAM

Standing : (left to right) Jamil Baban, Saad Tawfiq, Philip Dawisha, Ghassan al-Mudallal, Salam al-Chalabi.

Kneeling : Mahmud al-Azzawi, Abdul-Haq Ibrahim, Faraj Daud, Vahe Kouyoumdjian, Abadi Abadi, Juan Roca.

STUDENTS DEFEAT

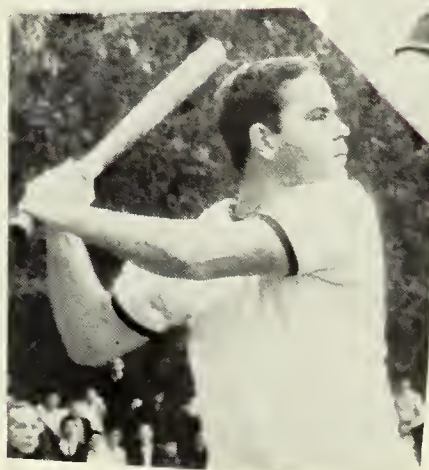

It was a great day for the students' spirits when, in one of B.C.'s historic moments, the students

FACULTY (9 to 3)

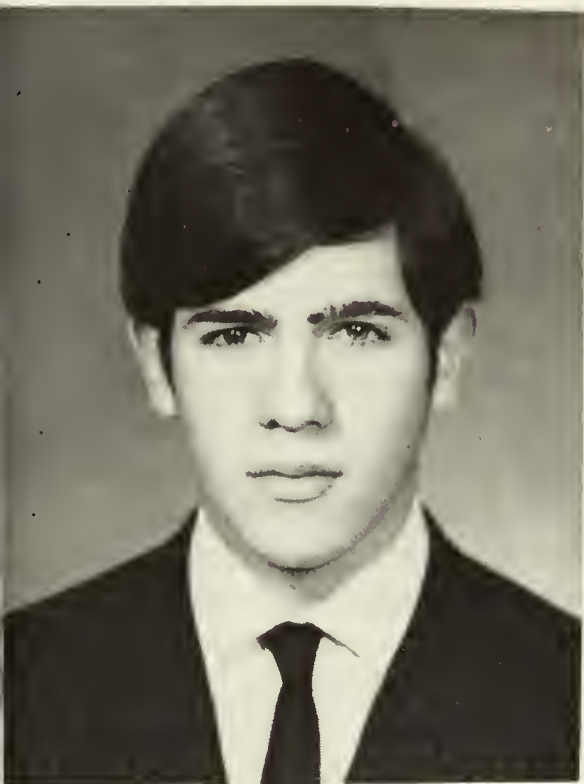

beat the faculty in
the annual baseball
game between the
Father/Misters and
Students.

Our Features section is an attempt to show the great amount of creative ability which can be found in our students. The following few pages are but a sample of the many talents of our students - the men of the future.

MONEY AND HUMANITY

NAMIR AL-DAMALUJI

Man, intelligent man, isn't born to be satisfied with physical comforts only. The main impulse in him is his mind, and the cultivated mind soon puts the material successes behind to seek greater and worthier goals, namely spiritual and moral achievements. While it is necessary to gain some material wealth in order to drive the mind to achieve higher goals, such material comforts may not always lead a man to happiness. A man could have all the money in the world, but he could be a very sad and unhappy man suffering from ill health. Money cannot help him here. If a person is not interested in using his money for social organization such as orphanages and hospitals, he cannot enjoy seeing the surplus of his wealth blossom forth in good works. On the other hand, if a person is interested in contributing to scientific research, and giving donations to schools and institutions, his happiness will be greater, seeing his money used to help humanity.

Since most men are desirous of enjoying life in its countless comfortable manifestations, it is obvious that money will always play a great role. So we can see that spending one's wealth in the right way, taking into account the needs of others who are not so fortunate, is one form of happiness.

Being among the graduates, I now come to think how much change a five year period can bring to a person. My story starts a few years ago with me proudly carrying my baseball and bat to and from Baghdad College. Every hour was a story, every day a landmark. So much so that I can truly say that our school was my hobby. It didn't take us long to realize that work at our school must be done, and done daily with quite a bit of efficiency and precision. On the campus we often enjoyed an exciting game of baseball or football, happy to join in or just to sit and watch; our campus was but a big playground containing an energetic group of lively students.

Tomorrow we shall leave this place. Our seats, however, will not remain empty, for this tomorrow will witness another group of students, but they shall soon leave. The Fathers stay on, though, watching the students growing and passing on.

No matter where we go after Baghdad College, this place shall always be a home for us and the period we spent here will remain an unforgettable chapter in the book of our life; and, think, all it took was a fair day's work.

A FAIR DAY'S WORK

HASAN AL-MAKHZUMI

Happiness is the greatest and noblest of all the feelings in man's heart. It is the driving motivation of our existence. Most of all, it is a response to a love that seeks respect, responsibility, generosity and self-sacrifice. It makes a person confident of himself, and it gives him hope for yet a greater happiness and a better life. Happiness gives a person courage to face the most difficult troubles in life. The happy person wants to make others happy too, by giving them what they need. The more a person gives, the happier he becomes. Why?

There are many kinds of happiness; some last but a moment, others endure longer, some are eternal. A person feels happy for a certain amount of time when he succeeds in a certain project. He comes to feel happy for a longer time when he gains possession of something very valuable to him; but soon it becomes old and he turns to something else. Another man is always happy because what he possesses lasts forever; it makes him always happier, it can't be taken from him. It is his only wish in life, it is the product of all his sufferings and work — it is God.

HAPPINESS

STEVE BONIAN

LIFE IS BUT A SERIES OF GOOD-BYES

UMAR A-WAHAB

Bidding someone farewell is one of the heaviest burdens a man's soul can ever endure, but the parting of someone very dear to you is practically impossible to avoid.

I once had that task, and the bitter experience of it has forced me to grab a pencil and paper and tell all that occurred to me on that hateful day a long time ago...

It was a misty morning and gloom was written on every inch of my face as I walked over to the home of my most beloved friend. Our bond had grown so close that, as we met, it was as if we were approaching our mutual doom.

They were all in that very busy stage of making the final frantic preparations for their plane, so that no one noticed two very long faces in the corner of the room, silently sharing the pang of remorse that was so very bitter!

In one hour's time it was all over. He was gone. So quickly! The next day came, and I went off to school as usual... or was it as usual? Oh! Now I remember, he has gone. All I did after that was by myself. Walking to school, coming back, playing our old games, it all seemed so hollow and useless.

Truly, life is nothing but a series of good-byes that are linked together to form a long chain of troubles that make life what it really is in this world, hard and tough as nails.

THE END OF DAY

JAFAR AL-RIKABI

He was sad. He just couldn't believe it; he couldn't grasp the fact that she was no more. He hardly knew her, but he was sensitive. He still remembered the days, long ago, when they were classmates. They were in the same class for two years in primary school. That was all. Of course he often saw her later on, but it was no more a friendship, not even an acquaintance. He only thought highly of her from afar. But... she was no more.

It left a hollow feeling inside him; he didn't know why he should feel so sad; yet, he did. He saw still sad when he got on the bus to go to school, but nobody seemed to share his feelings, nobody cared.

"Guess what?" shouted Mousa, the football enthusiast. "The Army beat the Police yesterday, two to one!"

"You don't say," was his reply. A punch in the nose would summarize his feelings towards Mousa. He simply had to tell someone. Somebody had to feel with him.

"Look, Ala', do you remember a..." But he did not finish. Ala' was too busy cramming for a chemistry exam.

"You should've seen that second goal; it went zoom past the goal-keeper..."

"Sulfuric acid with caustic soda gives..."

Chemistry be hanged; football be hanged. But the usual hum in the bus went on pounding in his ears. He recalled one time when he was a brat of nine playing with his mates. He fell

and cut a deep wound in his knee. Nobody paid any attention, except her. She nursed his wound until the teacher arrived and looked after him herself.

The bus reached its destination. During the lessons he heard nothing, only a little girl of eight telling him everything was all right while nursing a wound on his knee.

"Look, young man, if you don't want to pay attention in class, it is up to you; but you had better answer me when I ask you."

"Yes, sir; I'm sorry, sir." Why don't they leave him alone if they do not want to share his grief.

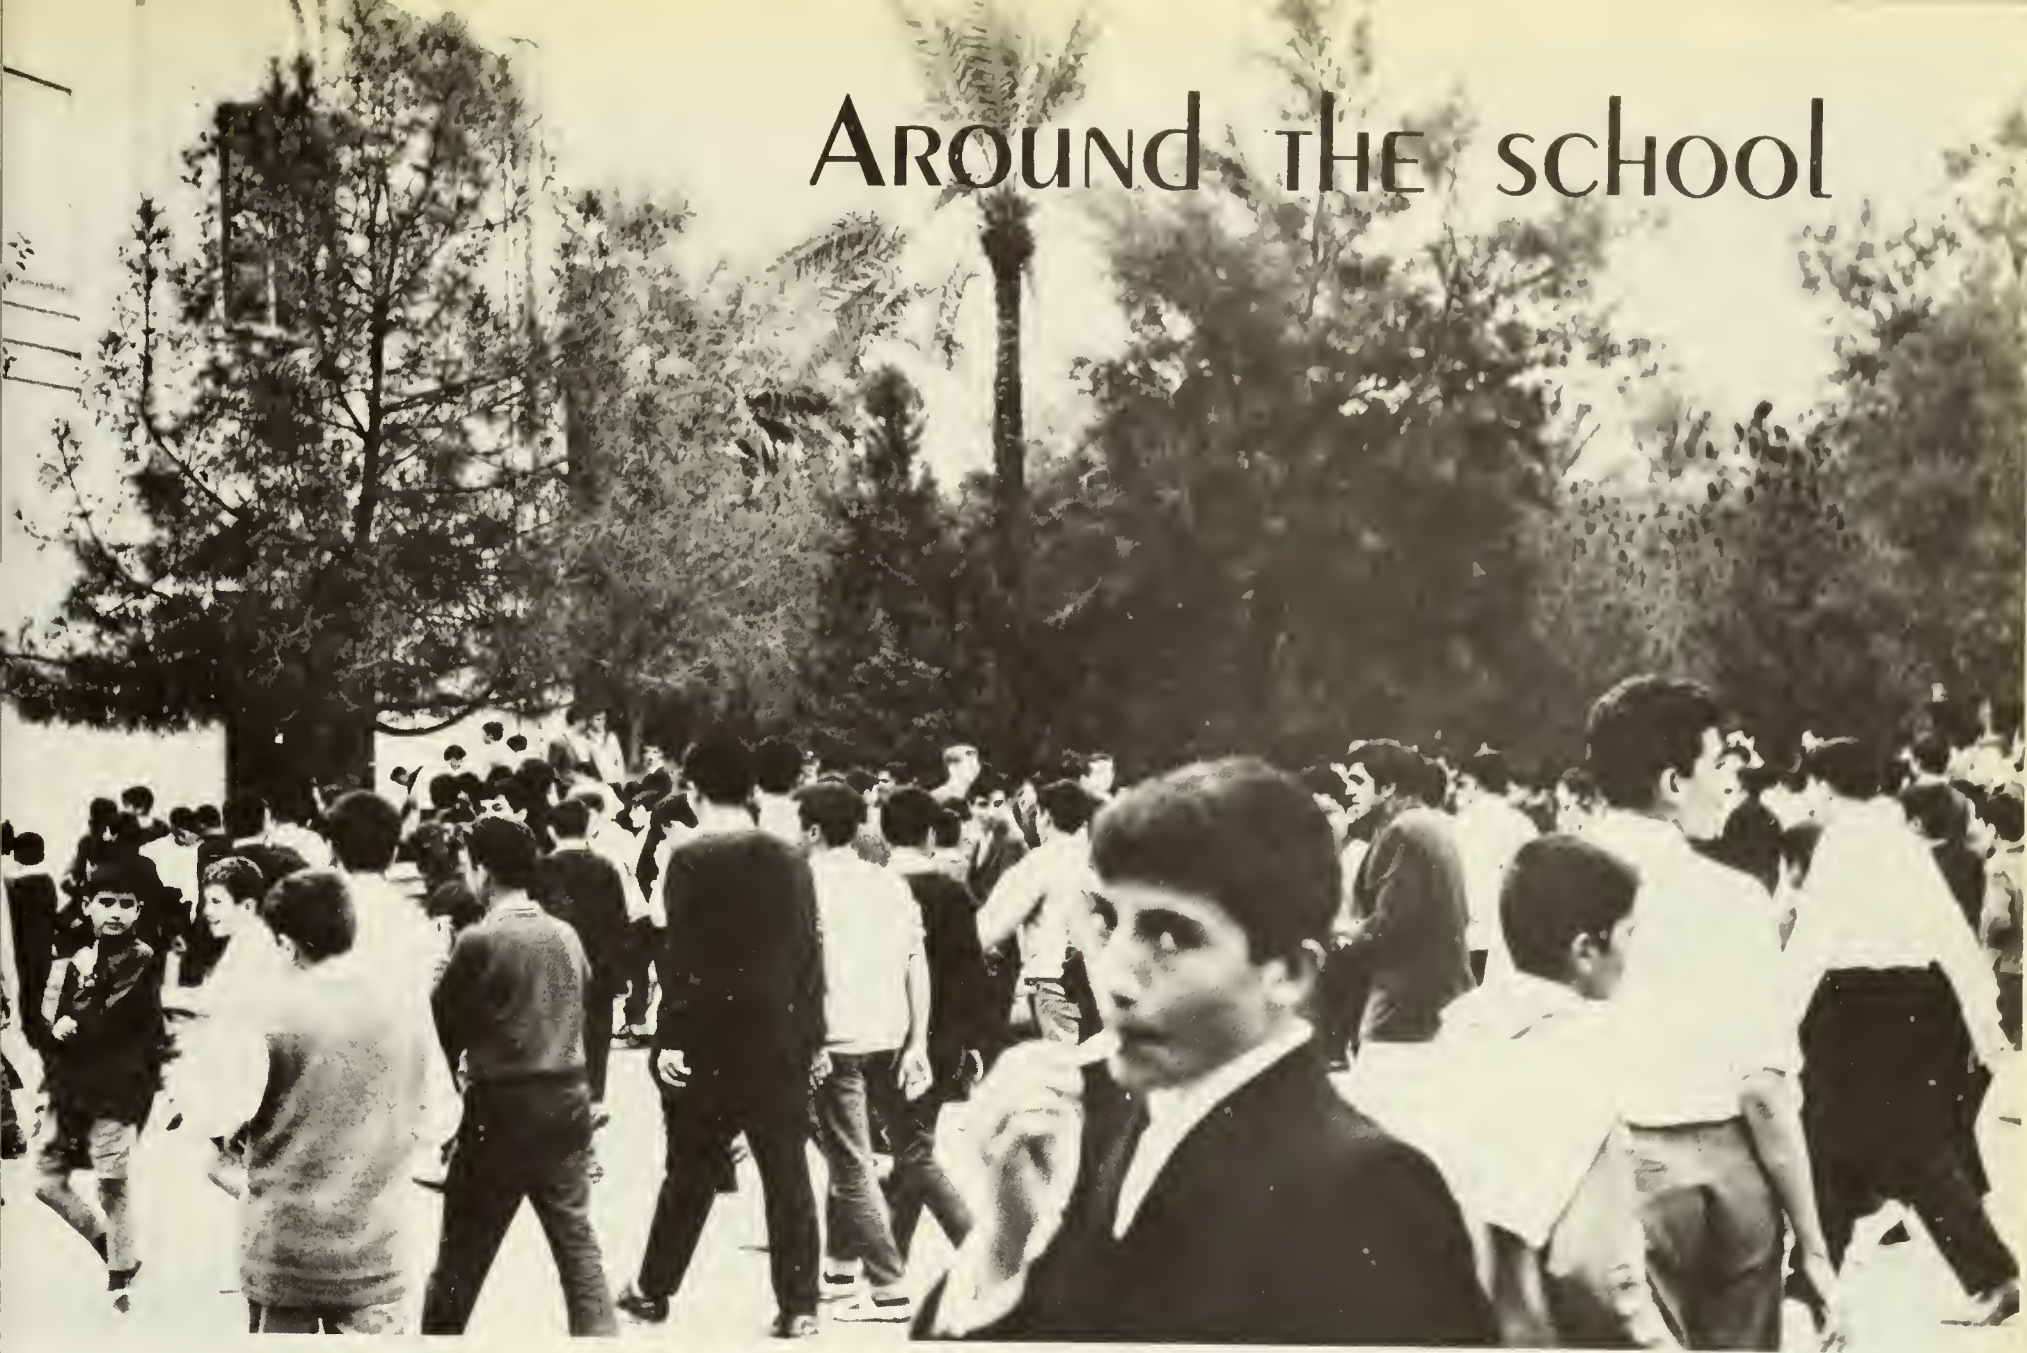

Later that day they had a ball game; the captain kept hollering at him, and finally kicked him out of the game.

That was his first encounter with death, the first time he saw life put to an end. That was probably why it affected him so deeply. He wandered around the campus, and finally sat by a date palm and told it the whole story. He was grateful it had no chemistry exams, and was not interested in football. When he was finished, he felt a load go off his chest.

On the way home, the usual chatter broke loose again; but he didn't mind. He didn't give a hoot for the kids in the bus. They could have been at the North Pole for all he cared.

The next day nothing left of a buoyant youth; only a lonesome grave, and a vague memory of a wound that healed.

AROUND THE school

5th Year

During the February vacation twenty-two of the Seniors spent three days living together in Sulaikh and making the Spiritual Exercises under the direction of Father Regan. In an atmosphere of silence they applied themselves to reading and reflection.

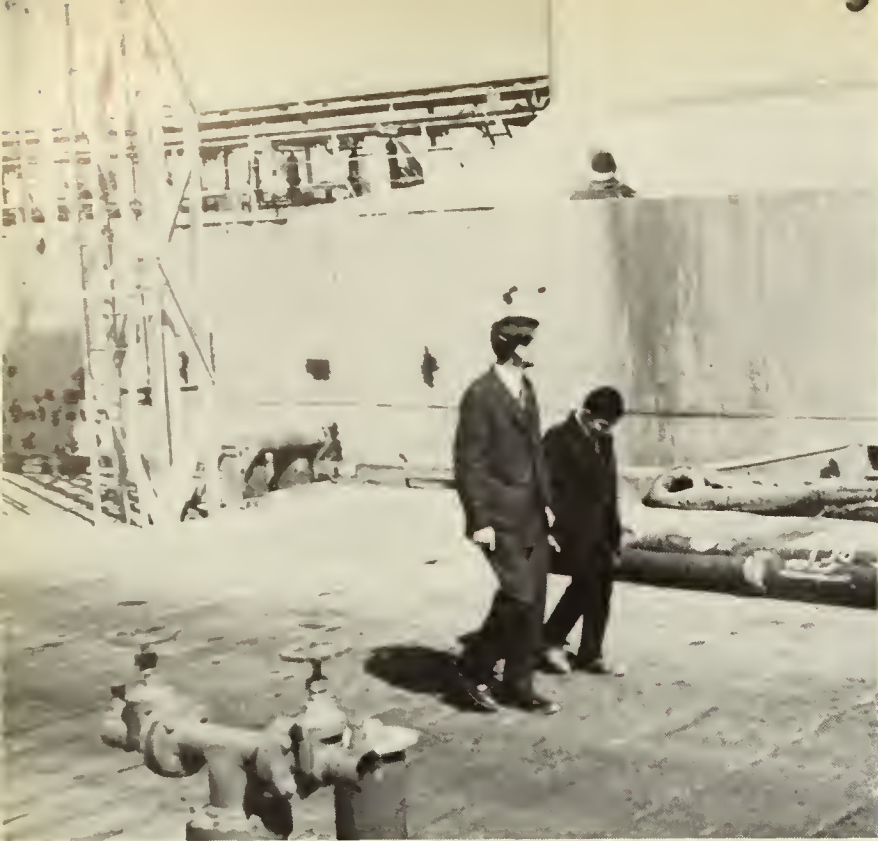

Closed Retreat

There were also opportunities for self expression in the recreations with their teachers, in the interviews with the Fathers and during the lively discussions among themselves. They left the retreat looking forward to future retreats as Alumni.

In Memoriam

Fr. John V. Owens, S. J.

and

Fr. Edward F. Madaras, S.J.

Father Edward MADARAS, S.J.

The life of Father Madaras, the co-founder of Baghdad College, could be summed up in the words of the psalmist: "One thing have I asked of the Lord; that I will seek after; that I may dwell in the house of the Lord forever." It is right to say that the first thirty-five years of Father Madaras' life was a preparation for the second thirty-five years, which he spent in Baghdad.

Edward F. Madaras was born in Ohio, January 30, 1897. In 1916, as a young man he dedicated his life entirely to the service of God, through the three solemn promises of poverty, chastity and obedience, in the Society of Jesus. After thirteen years of higher studies, he was ordained a priest in Holland in 1929. Special courses in art and archeology followed in Rome. In 1932, in answer to a petition from His Beatitude Emmanuel Thomas, and with the approval of the government of Iraq, Father Madaras and Father Rice came to Baghdad to establish Baghdad College. For the next thirty-five years, Father Madaras devoted his many and exceptional talents and all his strength to Baghdad College. Only once in those thirty-five years did he visit, for a few weeks, his two brothers who live in America. For seven years Father Madaras was President of Baghdad College; and many other years he labored as administrator, architect, builder and teacher. Though seventy years old, he continued to teach mathematics. His health began to fail in the spring of 1967. In spite of the devoted and generous attention of several doctors and splendid hospital care, Father Madaras died on October 2, 1967, in Baghdad. His constant wish was granted: to live and work and die in his home for thirty-five years, Baghdad. Father Madaras prayed especially for all Iraqis. We beg your prayers for him. May he rest in everlasting peace with God.

Father John OWENS, S.J.

When Father Owens finished his Jesuit studies in 1957, his hope of many years was fulfilled, and he came to Baghdad College. The last ten years of his life belonged to the people of Iraq. Most of those years were teaching years – biology, botany, religion. In 1962, however, he served as treasurer; in 1964 he studied Arabic. During the winter of 1965-66 he felt unwell, and after a series of tests the diagnosis came as he expected, cancer. He preferred to stay in Baghdad, but superiors decided to send Father Owens to the States for treatment. The operation was drastic, but apparently successful, and in September Father Owens came back to Baghdad as he desired. The school year began, his tenth in Iraq, and he carried a full schedule. It soon became apparent, however, that he was not in good health, and in December it was discovered that he had cancer again. He had six months to live.

This time his preference was respected. He was not sent back to the States. He returned to his Jesuit brethren at Baghdad College. Whatever life was left, he wanted to share with them, and with the people of Baghdad. And so he did. On December 30, he said farewell to his former students. He told them that during his life he had received three important calls from God . . . "The first was when God called me to be a priest. The second was last year: God gave me enough health to come back to you. My last call was last week, which I consider to be the greatest of all blessings, to go and be with Him."

He returned to his room, and there he remained, cheerful always, near to those who loved him. On May 19, he quietly went to God. Truly Iraq was his adopted land; Baghdad his adopted city; and the boys of Baghdad College, his adopted sons. He loved them all, unto the end.

**It's easy to choose an airline once
you've got the word.**

The word is experience.

More people fly with us than with any other international airline.

And many of these travellers can't tell you exactly why they choose Pan Am, trip after trip after trip.

Yet they know instinctively that they have done the right thing. It gives them a good feeling when they plan their trip. When they board their Pan Am Jet Clipper (R). When they

enjoy splendid in-flight service and superb cuisine by Maxim's of Paris. When they fly serenely and quietly at speeds that would have seemed incredible when we began flying 38 years ago.

And this good feeling can be yours.

Any time you choose to fly the very best there is.

You enjoy all the goodness of a gallon
of whole milk in every pound of

KRAFT CHEESE

AUSTRALIA'S FINEST PROCESSED CHEESE

Kraft Cheese is made under the most hygienic conditions from creamy, dairy-fresh milk. It takes one gallon of whole milk to make every pound of Kraft Cheese — that is why it is the ideal food for health, strength and energy.

2oz. blue can —
just for you

4oz. blue can —
for regular use

12oz. blue can — for the whole family

Kraft Cheese can be used in so many different and exciting ways — sandwiches, salads, grilling and cooking. You can always rely on Kraft quality, so insist on Kraft Cheese — obtainable everywhere in the familiar blue can.

CONTROLLED TEMPERATURES essential to modern living

Time-tested processes in food handling, air-conditioning, entertainment facilities, low-temperature industrial techniques — almost every phase of man's existence today is touched by the chill of commercial refrigeration. Because optimum performance in refrigeration demands dependable, often critical, control, Danfoss has devoted 35 years to research, design and manufacture of automatic controls for all types of refrigeration systems — commercial as well as industrial.

سعد عبد الوهاب شاكر ، الرابع ب

هَذَا لَهْوٌ تَقَدَّرْنَا

فيها ليل نهار لانتاج اسلحة غايتها الفتك بالجنس البشري.
في هذا العالم القذر مئات بل الوف من الانفس
الشريرة التي تتخذ طريق الشر سبيلا لكسب قوتها وتحصيل
رزقها وانا لا الوم غالبيتها لانها لم تترك سبيلا للعيش الا
سلكته ولكنها لم تستطع كسب قوتها. فلم تجد بدا من
الاتجاه نحو الشر.

وفي هذا العالم المتقدم كما ندعي كفر وتدنيس
للمقدسات ولكننا لا نستطيع الا ان نقف مكتوفي الايدي
تجاه هذا الكفر والتدنيس.

فأي رقي ذلكم الذي نحن فيه - وأي تقدم ذلك
الذي اصابه عالمنا... واي حضارة تلكم التي نتباهى بها...
ازيلو الجوع والمرض واجهزة الدمار واعطوا كل واحد
فرصة للعيش آنذاك يتحقق الرقي وعندئذ يسير العالم حثيثا
في ركب التقدم ووقتذاك نستطيع ان نبني حضارات
وحضارات.

اننا الان نفاخر بالتقدم الذي طور حياتنا وتبجح بالحضارة
التي اقمناها ونتباهى بالرقى الذي نحن فيه. ولكن لنقف
لحظة ونسائل انفسنا عن حقيقة ادعائنا... اصحيح ان
العالم تقدم تقدما كبيرا...؟ ان كثيرا من الجهلاء او
بالاخرى من الذين لا يفقهون ما حولهم سيقولون اننا
اليوم في عصر الذرة والصواريخ. اننا اليوم نعد من ارقى
المخلوقات...

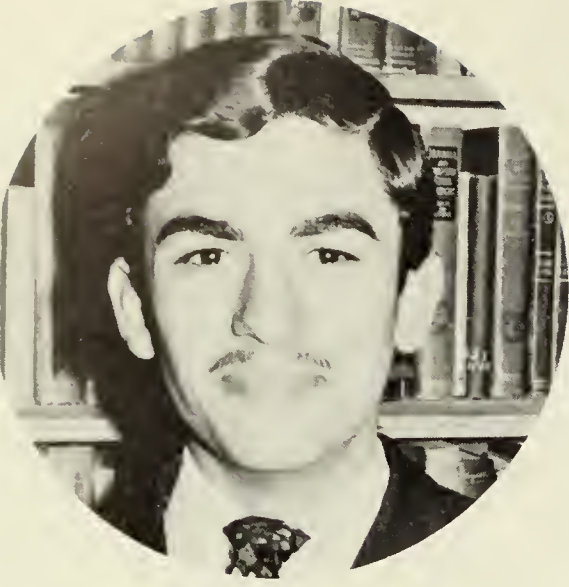

ولكنني اشك بأن العاقل الذي يتبصر الامور ويفقه
ما حوله سيجيب نفس الجواب.

ففي العالم اليوم الاف من الافواه الجائعة والبطون
الخاوية التي تنتظر حفنة ارز او رغيف خبز لتسد به رمقها
ولكنها لا تجده.

وفي هذا العالم الاف تقضي عليهم الامراض والابوثة
دون ان تصل معونة او مساعدة طبية.

وفي هذا العالم المسعور معامل ومختبرات يعمل من

مَاضِينَا وَحَاضِرُنَا

صباح عبد القادر وهي ، الخامس ج

حقوق العامل اليوم وبين حقوقه بالأمس وكذا بالنسبة للفلاح فالحال احسن والامكانيات اوفر وان كانت الحاجة أمس الى المزيد من الاصلاحات والكثير من رفع مستوى العيش .

ولو بحثوا التنظيم الاجتماعي لقالوا ان عائلة الامس كانت متماسكة متراسمة وانها اليوم متفككة منهارة واقول ان تنظيماتنا الاجتماعية في الماضي كانت قائمة على اساس من الرعب والخوف بالنسبة للولد وامه ودكتاتورية الاب الذي يتحكم في مصائر اولاده وزوجته ويبت فيها وقت يريد .

والاخلاق يضعونها على مائدة التشريح فيقولون : انها في تدهور وانحطاط ؟ صحيح ان شباب اليوم الذين يستميتون دفاعا عن اوطانهم ويفتدون الدين والقومية بكل مرتضى وغال ، هم احط خلقا من اسلافهم ؟ ومن قال ان الرشوة والفساد والفسق والفجور اكثر تغلغلا في المجتمع اليوم ؟ اذا كان الفسق هو سفور المرأة وكان الفجور في تعليمها فانا اسير في ركابهم ، ولو كان مجرد الحجاب كافيا لعصمة المرأة عن دوافع الزلل واميتها ولزومها عقر دارها شرطين للحفاظ على اخلاقها لكان القول بتدهور الاخلاق في عصرنا الحاضر امرا مسلما به .

من الناس من يذكر الماضي بالخير والبركة ويقارنه بالحاضر التعيس معددا مزايا تلك العهود الخوالي وما كان فيها من ازدهار في الناحية الاقتصادية والتماسك الاجتماعي وما لاهلها من قويم الخلق وطيب العادات والتقاليد مقارنا اياه بحاضرنا وما فيه من ازيمات اقتصادية وتفسخ اخلاقي وفساد نظم تهدد كيان مجتمعا جذريا وتندر بعظائم الامور كما يزعم .

والغريب في الامر ان كل جيل يردده الجيل السابق حتى لبيان لك ان البشرية في تأخر وما يحدث من تأخر في حياة المجتمع لا بد سائر بالفرد والجماعة على السواء الى طريق الانقراض الابدي . والاغرب من كل ذلك ان المراقب لو فحص الامور بعين بصيرة لوجد ان الامر على النقيض وان الاحوال الاقتصادية والاجتماعية والثقافية وسواها تتقدم حثيثا نحو الافضل وان ما يتمتع به ابن الطبقة المتوسطة الان لا يمكن ان تطاله ايدي الملوك والنبلاء اليوم .

ان هؤلاء اذا بحثوا اقتصاديا مثلا حصروا شكاواهم في غلاء الاسعار . يذكرون يوم ان كان رطل اللحم او الدقيق بكذا ويقارنوه باسعار اليوم التي بلغت اضعاف اضعاف هذه الاسعار ولكنهم ينسون ان يقارنوا بين دخل اليوم ودخل الامس وهم ينسون بعد هذا وذاك ان يقارنوا بين

إنسان

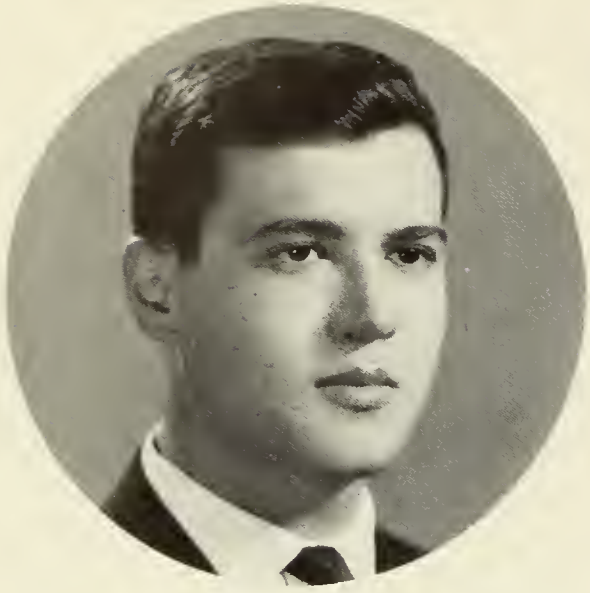

زيد عبد العزيز ، الخامس

ولكن ما الامل؟ انه شعاع يترأى لليأس فيحاول عبثا ان يهتدي به. ولكن هيهات. فما هذا وذاك الا سراب خداع يوهمه. لم يعد له من ملجأ سوى الله جل وعلا فليصل اذن راجيا الهداية وليكفر عن اخطائه انه الان يرى امامه طريقا طويلة مضاعة يسلكها غير متردد. ايكون هذا ما عجز عنه في البداية؟ احقا انه اهتدى؟ يا بشراه انه الان يتقدم ويركل كل العقبات غير آبه. واذا حدثته نفسه بآثم صبر وغفر له. هو يسير ثم يسير وينجح ويحقق آماله انها السعادة...

نشأ حساسا دقيقا في اعماله واعيا لا يقيم لقسوة الدنيا وزنا، لقد ابتسمت له الدنيا وشق طريقه في الحياة وارتقى سلامها حتى وصل مرحلة صعبة واذا بالضربة القاصمة تحطمه وتفقده ايمانه. فيبكي ويحزن وينعزل عن اصدقائه. تفيض عيناه بالدمع غزيرا ساخنا ويعتصر فؤاده الالم ويندب حظه التعس الذي اودى به الى هذه الهاوية. ثم يركن الى الصمت وتمر بمخيلته سلسلة احداث.

اصحيح هذا! أحتقره حتى اصدقاؤه!!
كلا لن يخضع للظروف وانما سيخضعها له.
لم يخلق الانسان لليأس وانما خلق للتفاؤل والامل.

اتسع وتعب الفقير

حيدر عبد الصاحب الشماع، الخامس أ

بهما كأني به قد عاهد الدهر - والدهر خؤون - على ان
يمطر عليه وابل الخيرات ما عاش ويحرم الفقير كل راحة
وسعادة، انه يخطئ فيما يرى. لان المال دولة تدول عاجلا
او آجلا وليس غريبا ان تنال الظروف من كرامة الاغنياء
فتقعدهم مقعد الفقراء وترفع هؤلاء الى اوج الكرامة
والعظمة. ومتى وضع المرء نفسه موضع البائس المسكين
وتصور مرارة الحياة اجتنب دون شك - كل إذلال له
وكل ازدراء وشعر بعاطفة سامية تبعث فيه الرحمة والشفقة.

فاذا اتسعت برزق ربك فاجعلن

منه الاجل لوجه الصدقات

فلا تذلل الفقير ولا تحتقره فهو أخ لك في الانسانية
ولكن يد الدهر نالت من دونك وفي مقدورها ان تنالك
مثله في الغد. وان انت خففت آلام الفقراء بمساعدتك
لهم فكأنك كتبت بنفسك صكا على الآخرين يوجب
عليهم ابقاء الدين اذا ما ابتليت يوما والا عاد استخفافك
بهم بوخم العواقب والجزاء من جنس العمل.

ان الحياة عبء ثقل يئن تحته كبار الرجال واغنيائهم
لأنها نسيج من المصاعب والاختار لا تلبث طائفة منها
ان تنقشع حتى تتلبد اخرى ربما كانت أشد منها وطأة
واقوى تأثيرا.

اما الرجل الفقير اما الرجل المعوز فانه يقاسي من
مضض الحياة غير ما يكابده الآخرون تراه ينشد اللقمة
يسد بها خلة جوعه وهو اذا اصابها لا يأكلها هنيئا لانه
يفكر في الغد اذا جاءت امرأته واولاده.

وتحت هذه القبة الزرقاء كثير من هؤلاء المساكين
ففي كل يوم تمر امام اعيننا مناظرهم المبكية فتتحرك في
من ضم بين جنبيه نفسا عالية عاطفة، معها يتألم لحالمهم
ويعطف على اليتيم والارملة ويمدحهما بشيء من المساعدة
تمكنهما من تحمل الفقر.

اما من لم يحمل قلبا رقيقا ولا عرفت عيناه دمة
استنزها منظر كئيب فهو مع المروءة على طرفي نقيض.
انه يشمت بضحايا البشرية ويزدري الفقر وذويه ويتندر

هاني مرار ، الخامس أ

اختر مهنتك تؤمن مستقبلك

كيف ستكسب عيشك؟ هل تصبح مهندسا، ام كيميائيا، ام استاذا في الجامعة، أم طبيبا؟

حاول ما امكنك ان تجد عملا يلذ لك. فمن أهم عوامل النجاح في العمل هي ان يجد المرء لذة في عمله، فاذا استمتع به فانه يقضي الساعات المقررة دون ان يحس بمرورها. ويكون احساسه وهو يؤدي عمله كاحساس من يلهو.

لا تقبل عملا ترى أنك «مرغم» على قبوله، ولو كان هذا على حساب رغبة والديك واسرتك. لا تقبل عملا ما لم تشعر في قرارتك انك مبال اليه. ولا بأس، مع هذا، أن تقدر مشورتها حق قدرها. فهما قد عاشا ضعف ما عشت او اكثر، واجتمع لهما من الحكمة ما لا تهيئه لك الا التجارب الطويلة، واعلم ان القرار الحاسم، آخر الامر، بين يديك انت. فأنت الشخص الذي سوف يهبه العمل السعادة او يرديه في هوة الشقاء.

تجنب الاعمال التي ترى ان فرص النجاح فيها ضئيلة وانفق الاسابيع بل الاشهر، اذا لزم الامر في التحري والاستعلام ودراسة كل ما يتعلق باحدى الوظائف قبل

ان تكرس لها حياتك. تستطيع مثلا، ان تقابل بعض الرجال الذين انفقوا في تلك الوظيفة عشرين او اربعين عاما من اعمارهم، فقد يكون لهذه المقابلات اثر عميق في تكوين مستقبلك. اسألهم النصيح. وحاول ان توجه لهم هذه الاسئلة. فانها تساعدك في اختيار عملك. فاذا كان مهندسا مدنيا فاساله:

أ- لو بدأت حياتك من جديد. اكنت تشتغل مهندسا مدنيا مرة اخرى؟

ب- لو انني درست الهندسة المدنية اصعب علي ان اجد عملا؟

ج- هل من مميزات، وهل من عيوب، في مهنة الهندسة؟

د- لو كنت ولدك، اكنت تختار لي ان اكون مهندسا مدنيا.

واذكر دائما انك يجب أن تتخذ قرارا حاسما في حياتك، فاعط نفسك ما شئت من الوقت لتقصي الحقائق قبل ان تتخذ القرار الفاصل، وقبل ان يتولاك الندم حيث لا ينفع الندم.

الأهـلـاء

من الالباء الذين التقينا بهم لأول مرة ونحن كطلاب جدد في كلية بغداد خائفين ، ذلك الشخص الحشن الواقف خلف المنضدة في المكتبة. وبمرور الزمن اكتشفنا بان تحت هذه الحشونة تكمن شخصية لطيفة مخلصه تجاه جميع الطلبة. وبارشاده الرصين تعلمنا كيفية الدراسة بانتظام وثبات. ولقد ادركنا بانه مستعد وكفاء دائماً لمساعدة الطلبة. ولهذا السبب فان متخرجي هذه السنة ١٩٦٨ مسرورون بتقديم تقديرهم واعجابهم واعتزازهم الى الاب ستانسلوس كري اليسوعي ذلك باهدائهم له هذه النسخة من مجلة العراقي. وشكراً لك ايها الاب الفاضل كري. وسوف نذكرك سنوات طويلة مقبلة.

الأب ستانسلوس كري^٧ اليسوعي
